Please Read Before Ordering

DELIVERY OF SEEDS

All Vegetable and Flower Seeds in this price list except Peas, Beans and Sweet Corn will be sent to places in the United States transportation charges prepaid. We will ship by parcel post, express or freight at our option. If seeds are ordered shipped by express where we would ship by freight, they will be sent by **express collect**.

Peas, Beans and Sweet Corn will be shipped at purchaser's expense, except as follows: If these seeds are included in any one order amounting to \$20.00 or more (not including Farm Seeds, Accessories, etc.) we will prepay transportation charges.

We will **not** pay transportation charges on Field and Grass Seed, Potatoes, Onion Sets, Accessories, Etc. These articles are always sent at purchaser's expense, except where they are quoted "Transportation paid" in this price list.

If your order includes items on which we do not pay transportation, please indicate how you want them shipped, whether by parcel post, express or freight.

When ordering seeds shipped by freight or express please be sure to give the name of your nearest freight railroad station or express office if it is different from your post office address.

Freight shipments are still slow and even mail and express are sometimes delayed, so please send in your order well ahead of the time you wish to use the seeds.

TERMS AND DISCOUNTS

Cash Discount 3%

Our regular terms are **cash with order**, for which we allow a discount of 3% on vegetable and flower seeds and plants only.

No cash discount is allowed on Potatoes, Field Corn or Field Seeds, Grass Seeds, Insecticides and Accessories. All these items are strictly **net cash with order** at prices quoted.

C.O.D. SHIPMENTS. 25% of the value of the order must be sent with all orders for goods to be shipped C.O.D. **No cash discount is allowed on C.O.D. shipments.** Orders are handled more quickly and are less subject to delay if full cash payment accompanies the order.

Plants, roots, potatoes, onion sets, etc. will **not be sent C.O.D.**

To **Market Gardeners** of established credit and those who furnish us with satisfactory references, we allow the following time payments on **vegetable seeds and plants**. (*Field and Grass seed, Potatoes, etc. are strictly cash with order and may not be charged.*)

Bills for seeds, plants, etc. shipped after December 1st are due and payable **net** August 1st.

Bills for goods shipped after August 1 are due **net** December 1st.

To **Florists** of established credit we allow the following time payments on **flower seeds and plants**.

Bills for seeds, plants, etc. shipped after December 1st are due and payable **net** June 1st.

Bills for goods shipped after June 1st, are due **net** December 1st.

CONDITIONS OF SALE

No seeds are sold by us that we do not know are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs reaching the purchaser in good condition. However, in common with all responsible seedsmen, we give no warranty, express or implied as to the productiveness of any seeds, plants or bulbs we sell, and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed. We will not accept or fill orders under any other conditions.

Moreton Farm, Rochester 11, N. Y.

HARRIS SEEDS

1946 Price List for Market Gardeners, Florists

Joe Harris taking notes on an early picking of Valiant Tomato in our trial grounds. Note the fine shape, even size and big yield of our stock in the foreground. Careful comparisons such as this are made on all the seeds we sell

● For over 65 years we have been growing seeds here on our own farms to meet the special needs of our market gardener customers. The standards we have set for ourselves in that time are, we believe, the highest in the seed trade. Now, despite the difficulties we have all experienced in recent years, Harris Seeds are as good or better than ever before.

Throughout the war, we have kept up our big trial grounds, checking every lot of seed for yield, earliness, trueness to type and adaptation to our conditions. New varieties are continually being tested and those that show a real improvement are now offered in this catalog.

There has been no let-up in the scientific breeding and careful selection which have made our Special Strains famous throughout the East. These superior Northern grown stocks

give our customers the advantages of extra earliness, vigor and dependability.

With the boys back and many people giving up their "Victory Gardens" there should be a big demand for the best quality vegetables in 1946. People who have had their own gardens will not be satisfied with ordinary vegetables. They will demand them fresh and of the finest quality such as you are able to grow from Harris Seeds.

Why not have a roadside vegetable stand this year? Selling direct to the consumer is always profitable and people will enjoy driving out to get vegetables, especially if they are better than they can get elsewhere. Harris Special Strains and other recommended varieties in this catalog are just the seeds you need for a highly successful stand.

ORDER BY MAIL

It is the easiest and most convenient way to get the seeds you want. Mail orders are filled promptly and accurately and you can depend on getting the best obtainable when you order Harris Seeds. In spite of the best service we can give you, we still advise ordering early, and making allowance for possible delay in shipping.

PLEASE NOTE: *All prices here quoted are subject to change without notice and to our stocks being unsold.* For prices of seed in quantities less than listed here, please refer to our general catalog.

EVERY LOT OF SEED IS TESTED

We make a special point of running careful germination tests on every lot of seed we send out. We use both germinator tests and also actual soil tests planted in the greenhouse. In all cases the results are *plainly marked on every package of seed.* Use these tests as a guide when planting in order to get good stands.

ASPARAGUS

204 MARY WASHINGTON. Large Early and Rust Resistant.

This variety is the best and most widely grown kind of asparagus. Our seed is the true strain and will produce the finest large stalks.

Oz. 20c; ¼ lb. 65c; lb. \$1.90; 10 lbs. \$17.50.

For roots, see page 35.

BEANS

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

*At the prices here quoted, beans are not prepaid. Purchaser pays transportation on beans except as follows: If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

50 New Long Tendergreen

Extra Long Pods—Heavy Yields of The Finest Beans
(See Photo on Back Cover)

We consider New Long Tendergreen the greatest improvement in market beans in recent years. Growers who have tried it are highly enthusiastic because these extra long handsome pods sell at the top of the market.

It is not only just as fine as our famous Tendergreen in earliness, heavy yields and excellent quality but the pods are much longer, averaging a full inch greater length. This extra size gives them an unusual and striking market appearance for a round bean. Enormous crops of these fine pods are produced on the husky, vigorous vines.

If your market wants long, round, green beans, be sure to grow New Long Tendergreen this year. See prices below.

(Note: This bean is also called "Longreen" and under that name it is a new All America winner for 1946.)

85 Tendergreen

Very Popular and Dependable Type

Our stock of Tendergreen has been the leading round green bean for many years and is still the favorite of many growers. Our stock is early, hardy and very productive and is one of the most dependable yielders we know. The pods are straight and thick-meated, stringless and of fine quality. See prices below.

PLENTIFUL—Note the heavy set.

60 Plentiful

Hardy and Prolific Flat Bean

One of the finest flat beans for market and shipping. Plentiful combines good looks and high quality with exceptional vigor and productiveness. The pods are longer than Bountiful, a few days later and have a distinctive bright green color. Very straight, thick-meated and of excellent flavor. The vines are robust, upright in growth and very prolific.

Our strain of Plentiful is the best we have ever seen and we highly recommend it. See prices below.

DWARF GREEN-PODDED BEANS

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See above)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
18 BOUNTIFUL. Selected Stock.....	\$.35	\$2.10	\$3.90	\$23.00	\$110.00
The standard flat podded variety; very early with long straight handsome light green pods. Our stock is outstanding for vigor, high yield and trueness to type.					
28 FRENCH HORTICULTURAL. Special Strain.....	...			Crop Failed
Developed and grown entirely by us, and is by far the best strain obtainable. Uniform long pods with superb coloring.					
31 GIANT STRINGLESS GREEN POD.....	.35	2.10	3.90	23.00	110.00
50 NEW LONG TENDERGREEN. See above.....	.45	2.50	4.65	28.00	135.00
60 PLENTIFUL. The Finest Flat Bean. See above.....	.35	2.10	3.90	23.00	110.00
71 RUBY DWARF HORTICULTURAL. Also called "Roman" Beans.....	.40	2.30	4.20	25.00
78 STREAMLINER. Long Straight Flat Pods.....	.40	2.35	4.35	26.00	125.00
Bears enormous crops of very attractive pods, straight slender and exceptionally long. Excellent for shipping and for markets where fine appearance counts the most. White Seeded.					
80 STRINGLESS BLACK VALENTINE. Heavy Yields.....	.35	2.10	3.90	23.00	110.00
One of the most prolific and earliest green beans. The pods are long, straight and handsome; they are nearly round when young, becoming oval or semi-flat as they mature. One of the best and most profitable market beans.					
85 TENDERGREEN. Early and Prolific. See above.....	.40	2.30	4.20	25.00	120.00

82 Sure Crop Wax

The Best Flat Wax Bean

If you want a flat wax (yellow) bean, grow this superior strain of Sure Crop. It is vigorous, healthy and of upright growth, producing enormous yields of long, straight pods. One of the most popular and profitable wax beans to grow. We offer an exceptionally fine, true stock. See prices below.

55 Pencil Pod Black Wax

The Finest Round Wax Variety

This is the bean to grow if your trade wants a round podded wax bean. Our stock is especially bred for vigor, high yield and true type, and growers in all sections have been highly pleased with it. The pods are of good length, round and nearly straight and the quality is very high. See prices below.

DWARF WAX PODDED BEANS

	NOT PREPAID* (See page 2)			
	1 lb.	7½ lb.	15 lb.	100 lb
55 PENCIL POD BLACK WAX. See above.....	\$.40	\$2.35	\$4.35	\$26.00
68 ROUND POD KIDNEY WAX or Brittle Wax.....	.50	2.65	4.95	30.00
Pods 5 to 6 in. long, straight, round, clear yellow, stringless and medium early.				
82 SURE CROP WAX. The Best Flat Wax Bean. See above.....	.40	2.30	4.20	25.00
88 UNRIVALLED WAX. Early—Fine Appearance.....	.40	2.35	4.35	26.00
A heavy yielder of attractive narrow, flat, clear yellow pods. Very handsome market appearance. A few days earlier than Sure Crop.				

LIMA BEANS

26 Fordhook U.S. 242

Uniform—Heavy Yielding—Dependable

A new and really better lima bean for market. Developed by the U.S.D.A., this strain will set heavy crops of fine pods even under adverse conditions such as hot, dry weather. It yields more on the early pickings and the total yield for the season is greater.

The pods are remarkably uniform—every one is good sized, nearly straight and closely filled with 3 or 4 choice thick beans. The seed is a little smaller than our regular Fordhook but the fine shape and size of pod holds up even on the late sets. We highly recommend this new strain to all growers, and particularly to those who have had difficulty growing good limas in the past. See prices below.

25 Fordhook Bush Lima

The Standard Dwarf Lima

This is still by far the most widely grown variety and it is certainly one of the best to grow for market. Our stock is outstanding for high yields, uniformly large size and fine quality, and is used by successful growers in many sections. The pods are large and are well filled with fine, thick green beans.

On this variety it is especially important to plant only first class seed. We have it. See prices below.

FORDHOOK U. S. 242—Fine, new bush lima.

23 Early Market

A new variety of the flat-seeded Burpee's Bush type, popular with many growers because of its earliness and heavy yields. The green seed coats give the beans a fresh appearance even when mature and the quality is excellent.

The dwarf vines set a very heavy crop early in the season usually coming on ahead of Fordhook, and the dark green pods are long, measuring 4 to 4½ inches. A very dependable producer. See prices below.

Treat Lima Beans with **SPERGON**. This new seed treatment gives better stands and increased yields. See page 48.

25 lbs. or more of one variety will be supplied at the 100 lb. rate. A bushel weighs 60 lbs.

	NOT PREPAID* (See page 2)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
11 BABY FORDHOOK. Small Thick Seeded Type.....	\$.35	\$2.10	\$3.90	\$23.00
20 Burpee's Improved Bush Lima.....	.35	2.00	3.75	22.00
23 EARLY MARKET. (New.) See above.....	.50	2.65	4.95	30.00	\$145.00
25 FORDHOOK BUSH LIMA. See above.....	.40	2.20	4.05	24.00	115.00
26 FORDHOOK U.S. 242. (New.) Heavy Yields. See above....	.45	2.40	4.80	29.00	140.00
33 Henderson's Bush Lima.....	.40	2.20	4.05	24.00	115.00
35 IDEAL or Mammoth Podded POLE LIMA.....	.40	2.30	4.20	25.00
Pods often 8 in. long, early and prolific. This is the best large podded Pole Lima.					

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

40 Kentucky Wonder—Harris' Special Strain

This special white-seeded strain was developed here on our own farms and it produces heavier yields and finer pods than any other. The tall vigorous vines are remarkably healthy and prolific and the pods are exceptionally long, straight and meaty. See prices below.

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See page 2)			
	1 lb.	7½ lb.	15 lb.	100 lb.
38 Kentucky Wonder. Also called "Old Homestead".....	\$.40	\$2.35	\$4.35	\$26.00
Long, slender, green pods of fine quality. Early and very prolific.				
39 Kentucky Wonder Wax.....	.45	2.50	4.65
Long, flat, yellow pods of fine quality. One of the best wax pole beans.				
40 KENTUCKY WONDER, Harris' Special Strain. See above.....	.50	2.65	4.95	30.00
44 KING HORTICULTURAL. Harris Special Large Seeded Strain.....	Crop Failed	
75 SCOTIA. Fine for Roadside Markets.....	.40	2.35	4.35	26.00
Extremely prolific, with round slender green pods of the finest quality. Has proved very profitable as a high quality bean for discriminating trade.				

FIELD BEANS

Sow about 60 lbs. per acre.

	NOT PREPAID* (See page 2)			
	1 lb.	7½ lb.	15 lb.	100 lb.
16 BOSTON MARROW or White Marrowfat. Perry Strain.....	\$.35	\$1.90	\$3.45	\$20.00
63 CALIFORNIA RED KIDNEY.....	.35	1.80	3.30	19.00
66 Robust Pea Beans.....	.30	1.45	2.55	14.00
91 White Kidney.....	.40	2.20	4.05	24.00

BROCCOLI

Our strain produces the finest heads.

BRUSSELS SPROUTS

1 oz. will produce about 3000 plants.

236 Catskill

Heavy Yields of The Finest Sprouts

This variety which we introduced a few years ago is now universally recognized as the best kind to grow in the East, for there is simply no comparison with the older kinds. Our strain was developed in the Catskill mountain section where the finest sprouts in the country are grown, and is now used almost exclusively by expert growers there, as well as in many other sections.

The plants are very dwarf, compact and uniform, and every one produces a heavy set of fine large firm sprouts. If you have had difficulty growing good sprouts in the past, plant Catskill—it is by far the most productive and dependable kind.

¼ oz. 90c; ½ oz. \$1.65; 1 oz. \$3.00; ¼ lb. \$10.00; 1 lb. \$35.00.

CATSKILL BRUSSELS SPROUTS

By far the best strain obtainable.

BROCCOLI

230 Italian Green Sprouting (Calabrese Strain)

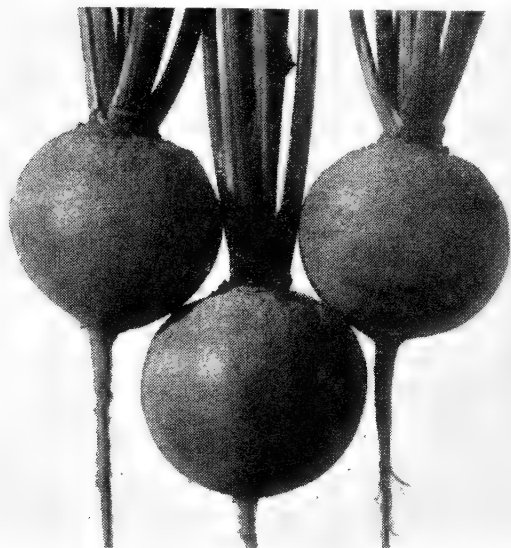

1 oz. of seed will produce about 2000 plants.

The special stock which we offer is the finest we have ever seen, for it combines all the most desirable features of good broccoli. It is early and yet it produces the fine compact, tightly budded heads of blue-green color which the market wants. It is vigorous and uniform and can be depended on to produce large center heads and an abundance of large side shoots. No better seed can be obtained at any price.

Oz. 60c; ¼ lb. \$1.75; 1 lb. \$6.00; 10 lbs. \$58.00.

BEETS

¼ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre for rows 14 in. apart; 6 to 8 lbs. per acre for rows 18 in. apart.

HARRIS' DETROIT DARK RED

215 Detroit Dark Red Harris' Special Strain

Famous for Fine Color

This is the best beet for late summer and fall trade. It is not only of excellent globe shape but has a superb deep red color that is without equal. Harris' Special Detroit Dark Red is a vigorous large topped strain which is particularly fine for fall bunching, and is also perfectly suited for canners. We know canners who insist on Detroit beets grown from our seed in preference to all others.

We have grown and selected this strain for many years on our farms and now we can confidently state that no better strain of Detroit beet can be obtained. It will produce heavier yields of smooth, round, dark red beets than any other.

Our seed crops this year have been excellent and we offer our customers fine seed of high germination. See prices below.

212 Harris' Special Crosby's Egyptian

See Photo on Front Cover

Harris' Crosby is without question the best early bunching beet obtainable. It is very early, makes a good strong top and the leaves hold their bright, green color even in cold weather. The beets are very handsome, dark red in color with small tap roots. Recent improvements have made the interior color almost as good as Detroit. The smoothness and uniform shape of this strain make them invariably the finest looking beets in the market, and they naturally command top prices.

We are proud of our stock of this grand beet, for it is backed by over thirty years of careful breeding here on our own farms. As we have said many times, "Every one a model for shape and color." See prices below.

Irwin Wickham, Stanley, N. Y. and Joe Harris in Mr. Wickham's bumper crop of Harris Detroit Dark Red Beets.

Use the new **ARASAN** for treating beet seed. Improves stands and protects against damping off. Inexpensive and highly effective. See page 48.

	¼ lb.	1 lb.	10 lb.	100 lb.
210 BEETS FOR GREENS. (Green Top)	\$.40	\$1.30	\$12.00	\$110.00
A distinct, rapid growing variety, selected to produce fine tops quickly.				
212 CROSBY'S EGYPTIAN. Harris' Special Strain. See above50	1.55	14.50	135.00
215 DETROIT DARK RED. Harris' Special Strain. See above50	1.55	14.50	135.00
217 Early Blood Turnip45	1.40	13.00
A good old variety. Large, somewhat flattened beets. Very early.				
219 EARLY WONDER. A Superior Strain for Bunching50	1.55	14.50	135.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
222 LONG SEASON. Also called "Winter Keeper"80	2.60
A very late variety of extra fine quality. Description in Retail Catalog.				

MANGELS—For Stock

Six to eight pounds of seed will sow an acre.

	¼ lb.	1 lb.	10 lb.
546 DANISH YELLOW GIANT. The Heaviest Yields	\$.35	\$1.00	\$9.50
550 MAMMOTH LONG RED. Very Popular35	1.00	9.50

SWISS CHARD or Spinach Beet—see page 27

CABBAGE

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

GOLDEN ACRE CABBAGE

270 Golden Acre

The Earliest Cabbage

This variety is the best early market cabbage and one of the most profitable kinds to grow. The round heads ripen very early in the season and the plants are dwarf and compact with few outer leaves so that they may be set close together.

Our seed of this popular variety is the true uniform early strain that we have sold for years and is vastly superior to most stocks sold. See prices below.

271 Golden Acre Special

We are very pleased that we can again offer our customers this outstanding extra early strain of Golden Acre. This is a highly refined stock, very uniform in type and ripens a large proportion of its heads at one time. For growers who want the very best in early cabbage, we recommend Golden Acre Special. See prices below.

290 Red Acre

The Earliest Red Cabbage

A very profitable variety ripening shortly after Copenhagen Market. The heads are small, round and hard, and the plants are compact, permitting close planting. This strain heads very uniformly and the color is a beautiful, deep red with an attractive "bloom" on the outside. Even under adverse conditions, nearly every plant makes a perfect head. See prices below.

250 Copenhagen Market Early Strain

This round headed early strain of Copenhagen cabbage ripens a few days later than our Golden Acre and the heads are somewhat larger. It is one of the best early market and shipping types.

Our stock is very uniform with compact short-stemmed plants and it produces fine medium size round heads. See prices below.

All the cabbage seed we offer is **HOT WATER TREATED**, eliminating the possibility of Black-Leg or Black-Rot being carried on the seed. Added work for us, but insurance for you!

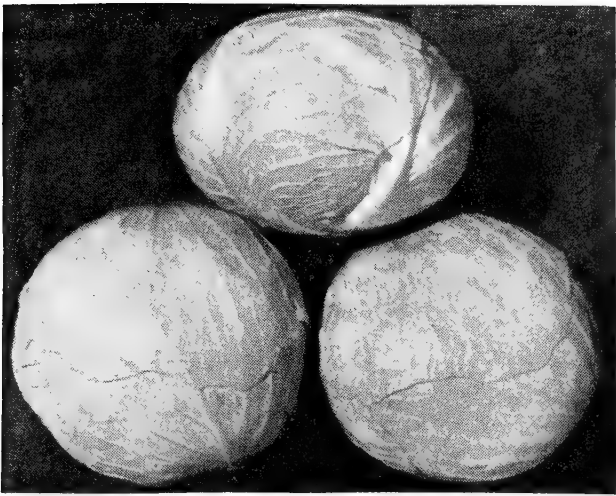

276 Large Late Copenhagen

Tremendous Yields—Best for Kraut

This strain is the same extra large-headed stock that we sold before the war. It ripens about two weeks later than the early Copenhagen and the heads will remain hard without splitting longer than any other kind, making it excellent for kraut. May also be cut for main crop market and is especially valuable because it produces such enormous yields of fine cabbage. The heads grow 10 to 12 in. in diameter, nearly round and very uniform. See prices below.

EARLY AND MEDIUM EARLY VARIETIES

	Oz.	¼ lb.	1 lb.	10 lb.
250 COPENHAGEN MARKET, EARLY STRAIN. See above.....	\$.55	\$1.65	\$5.50	\$54.00
261 EARLY JERSEY WAKEFIELD. Early Pointed Heads.....	.50	1.35	4.50
A popular extra early variety with small upright pointed heads of excellent quality. Our strain is particularly fine, the heads being very uniform and early.				
263 ENKHUIZEN GLORY. Large Headed Midseason Type.....	.50	1.45	4.75	46.50
Large round, medium early type for market and kraut. Heads as large as the late kinds and mature much earlier. The heavy yields make this a most profitable variety.				
264 ENKHUIZEN GLORY. Yellows Resistant. (Globe.).....	.60	1.75	6.00
A uniform stock of Enkhuizen Glory type for use on yellows infected soil. Heavy yielder.				
270 GOLDEN ACRE. The Earliest Variety. See above.....	.55	1.65	5.50	54.00
271 GOLDEN ACRE SPECIAL. See above.....	.65	2.00	7.00	69.00
272 GOLDEN ACRE. Yellows Resistant.....	Crop Failed	
276 LARGE LATE COPENHAGEN. Best for kraut. See above.....	.55	1.65	5.50	54.00
281 MARION MARKET. Yellows Resistant.....	.65	2.00
Valuable for market and kraut where yellows is present in the soil. Resembles Copenhagen Market but larger and somewhat later. Solid rounded heads and vigorous plants.				
290 RED ACRE. Early Round Red. See above.....	.65	2.00	7.00	69.00

PENN STATE BALLHEAD
Noted for its solid uniform heads

**255 Danish Ballhead,
 Harris' Special Strain**

The Outstanding Short Stem Danish Cabbage

This is a true short stemmed Danish type that we have grown for many years here on our own farms. The heads are rounder than most Danish, with an attractive bright green color, slightly tinged with purple. It is very uniform, extremely solid and just the right size for market and shipping, averaging about five to six pounds in weight.

The vigor and great uniformity of this strain make it the most consistently heavy yielder we know. In addition it has proved to be a very superior keeper, coming out of storage in excellent shape. See prices below.

285 Penn State Ballhead

True Stock—Excellent for Storage

In many cabbage sections, more and more growers each year are turning to our stock of Penn State Ballhead. It is outstanding for its uniform solid heads and the big tonnage it produces per acre.

The heads are medium size, more flattened in shape than our Special Strain of Danish and they are exceptionally uniform. It is an excellent storage type and a heavy yielder, making it a most profitable kind to grow.

The stock seed for our crop came directly from Dr. Myers at Penn State College, and the strain we offer is the best and purest obtainable. See prices below.

256 Danish Ballhead—Short Stem

Uniform Heavy Yielding Strain

We consider this strain one of the best and evenest stocks of Danish Cabbage we have had in our trials for many years. The heads are attractive in shape, slightly broader and not quite as deeply rounded as our special strain. The color is more greenish than most Danish and the heads are good sized and very solid. The tonnage per acre is exceptionally heavy.

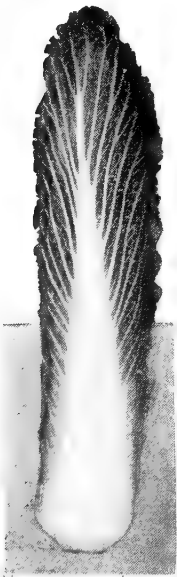

The plants make a remarkably even growth, all short stemmed, and practically every one produces a fine head. An excellent strain for late market and storage. See prices below.

"We set out 44,000 cabbage plants from the seed of Golden Acre Special from you and commenced cutting to sell the last of May and finished harvesting them today."

*Henry D. Peters & Son, Hamden, Conn.
 July 3, 1945*

LATE OR MAIN CROP VARIETIES

	Oz.	¼ lb.	1 lb.	10 lb.
242 ALL SEASONS. Yellows Resistant.	\$.60	\$1.90	\$6.50
A large late domestic type producing heavy crops of fine quality cabbage for kraut. Heads broad, semi-flat and very solid. Highly resistant to yellows.				
255 DANISH BALLHEAD, Harris' Special Strain. See above.70	2.15	7.50
256 DANISH BALLHEAD, Short Stem. See above.55	1.65	5.50	\$54.00
285 PENN STATE BALLHEAD. True Stock. See above...	.55	1.65	5.50	54.00
292 SUPER CURLED SAVOY. The Best Variety.60	1.90	6.00	59.00
Finest Market Gardeners Strain. Closely resembles Chieftain. Fine heads, more savoyed, earlier and more compact plants than most Savoy. Heads large and solid. This is the most uniform stock we have ever seen.				
295 WISCONSIN HOLLANDER. Yellows Resistant.	Crop Failed	
The best "yellows" resistant Danish cabbage obtainable but should be used only where the soil is known to be infected with yellows.				
279 MAMMOTH ROCK RED. Sure Heading Strain.60	1.75	6.00	59.00
The largest red cabbage. The heads are hard, medium round and deep red. This is the best late red kind for market or shipping.				

CHIHLI

248 CHINESE CABBAGE—Chihli

This is the most popular kind and best for market and roadside stands. It has almost entirely replaced all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and size, hard and firm. A profitable crop both muck and upland, as it commands a ready market, and can also be held in storage for winter sales.

Sow the seed in July or August; the crop matures in 8 to 10 weeks. 1 to 1½ lbs. will sow one acre.

Oz. 35c; ¼ lb. \$1.10; 1 lb. \$3.50; 10 lbs. \$33.50.

CAULIFLOWER

One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

Harris' Cauliflower Seed

We have always made a special point of supplying only the very best in cauliflower seed and the great increase in sales that we have had in recent years shows that our hot water treated seed is really giving outstanding results in the hands of our customers.

Our special strains are now grown in this country and it has been definitely proved that they are fully equal to the best seed that was ever imported from Europe. We are pleased that we can supply these fine stocks at reasonable prices. You do not have to pay exorbitant prices for your cauliflower seed as there is no better seed than ours to be obtained at any price.

HOT WATER TREATED SEED

This year all the cauliflower seed we offer is *Hot Water Treated*. Treated seed produces cleaner and better crops, and we are glad to provide this free extra service to our customers.

SNOWBALL PERFECTED STRAIN
*Andrew Bonnet, Rochester, N. Y. displays
some of his fine crop.*

340 Snowball Cauliflower Perfected Strain

"No better seed can be bought at any price"

This is the stock that it pays to grow! Year after year under good and poor growing conditions our strain continues to produce the largest percentage of fine uniform number one heads; the kind that bring top prices. It is recognized by the leading growers in the East as the best cauliflower grown.

The heads are unusually deep and heavy, of uniformly good size, beautifully white with a tight attractive curd. The plants are robust and erect and there is ample leaf coverage around the head. Unexcelled either for local market or for shipping.

The exceptional uniformity and dependability of our Snowball, Perfected Strain have made it the one outstanding stock in all sections. See prices below.

345 Super Snowball—True Stock

Famous for its Large Early Heads

This is the best strain for extra early crop. Under favorable conditions of soil and weather it produces wonderful yields of fine large broad heads, the whole crop maturing at almost the same time.

Growers have long recognized our Super Snowball as the most profitable early type. Although there are many similar strains offered under a wide variety of names, our customers have found that this strain has never been surpassed. See prices below.

343 Snowdrift

*Also Called White Mountain and
Improved Holland Erfurt*

In the same season as Snowball, producing large firm heads which are very white. This variety is popular in many sections and is sold under a variety of names. Ours is an extremely fine true stock which has given excellent results for our customers. We recommend it highly. See prices below.

333 New Early Purple Head

By far the best purple cauliflower obtainable. It ripens before Oct. 1st from plants set out the last of June and the quality is considered much superior to white cauliflower. These bright attractive purple heads are getting better known each year and on markets where the fine delicate flavor is recognized, it has a real place. See prices below.

CARROTS

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

315 Nantes—Coreless

Smooth and Handsome—Finest Quality

Nantes is the attractive *coreless* variety that is used so much for early bunching as well as a topped carrot on many markets. The carrots are six to seven inches long, nearly the same size the entire length and stump rooted. The smooth waxy surface and uniform cylindrical shape gives them a most handsome market appearance. They are entirely coreless and of finest quality.

We highly recommend this excellent and popular variety. See prices below.

316 Nantes—Strong Top Strain

This is the best strain of Nantes to grow for bunching. The tops are not noticeably larger than the regular strain but they are stronger and much less likely to break at the collar. The roots are the same excellent type, thick, cylindrical and stump rooted, and the inside color is even better than the other. For early bunching carrots this strain is unexcelled. See prices below.

320 Red Cored Chantenay

Heavy Yielding Type Preferred by Cannors

We have an excellent stock of this popular carrot and our customers are highly pleased with it. This stock will produce enormous crops of fine smooth carrots, and has been so improved in recent years that it is practically 100% red cored. It is used both for market and as a high quality kind for canning. Red Cored Chantenay does remarkably well on muck, making a long smooth root of very attractive appearance. See prices below.

312 Imperator

Outstanding for Bunching

Our strain of this famous bunching carrot is much superior to others in smoothness, uniform slender shape and deep orange color. The carrots are ideal for high class bunching trade, growing about 8 inches long, smooth, somewhat tapering, and the fine dark color is carried right down to the tip. This stock is really *coreless* and of fine quality. The tops are just right for bunching. See prices below.

CHANTENAY SPECIAL

305 Chantenay—Special Strain

This is an extra fine strain, growing fully an inch longer than the old kinds or the Red-Cored, and is a very popular all-purpose variety. The carrots are handsome, smooth and stump-rooted, and the yields are enormous. Tops big and strong. For many years one of our best-selling carrots and we recommend it highly. See prices below.

	Oz.	¼ lb.	1 lb.	10 lb.	100 lb.
305 CHANTENAY. Special Strain—Long. (See above).....	.20	\$.60	\$2.00	\$19.00	\$180.00

308 Danvers Half Long. A Heavy Cropper.....	.20	.60	2.00	19.00	180.00
We have a pure heavy yielding stock of this popular variety.					
310 HUTCHINSON. True New England Type.....	.25	.75	2.45	23.50	225.00
Produces large carrots 9 to 10 inches long, nearly cylindrical and stump-rooted. Enormous yielder and widely grown in New England and other sections both for bunching and as a topped carrot. Our stock is superior in color and dependability.					
312 IMPERATOR. (See above).....	.25	.70	2.20	21.00	200.00
315 NANTES (CORELESS). (See above).....	.30	.85	2.75	26.00	250.00
316 NANTES. Strong Top Strain. (See above).....	.30	.85	2.75	26.00	250.00
322 SUPREME HALF LONG.....	.25	.70	2.20	21.00	200.00
A slender refined coreless strain of Danvers type but smoother and better colored. Uniform and attractive roots. Solid deep orange in color with a very small "red" core. Excellent for both busheling and bunching.					
325 TENDERSWEET. The Sweetest Carrot.....	.30	.85	2.75	26.00	250.00
This carrot is being grown more and more for market. The roots are large, smooth and tapering, of striking deep orange-red color. They are a good bunching carrot and are of very superior quality.					

25 lbs. or more of one variety will be supplied at the 100 lb. rate.

CELERY

An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.

358 Cornell 19 Celery

Developed by Cornell University, this fine variety is rapidly becoming one of the most popular in the East, both for muck and upland.

It is a yellow self-blanching type combining all the best qualities of the green Pascal celeries—the stalks are very long, smooth-ribbed and deeply rounded, and the flesh is thick, crisp and tender. The heart is well developed and *even the outer stalks are of excellent quality.*

It is resistant to yellows and the growth is vigorous and healthy, producing very large yields. We recommend it especially for main crop as it may produce seeders if planted too early. The stalks blanch quickly and hold up well in storage. See prices below.

357 Cornell 6

Extra Thick Stalks—Beautiful Appearance

A new vigorous-growing celery of the same type as Cornell 19 but much preferred by some growers. It makes a somewhat heavier growth, the stalks are thicker and smoother and it shows a little fuller heart. Not quite as long to the first joint but the broad smooth stalks have a waxy sheen and a most attractive creamy yellow color.

Like Cornell 19, the quality is excellent but the stalks are brittle and require care in handling. Highly recommended. See prices below.

377 Summer Pascal

New, Early Green Celery of Superior Quality

Because of its earliness, fine quality and attractive appearance, this excellent celery has become very popular in the East wherever green celery is grown. The plant is medium tall, very robust

CORNELL 19 CELERY
The finest for main crop.

with long, thick, rounded stalks. The stems blanch quickly and are of the finest quality. Summer Pascal is very well adapted for both early and later crops.

Our strain is outstanding for uniformity and produces more heart than most strains. We recommend it as the finest strain obtainable. See prices below.

Yellow or "Self-Blanching" Varieties

	¼ oz.	½ oz.	Oz.	¼ lb.	1 lb.
357 CORNELL 6. (New.) See above.....	.65	\$1.00	\$1.90	\$6.30	\$22.00

365 GOLDEN PLUME or WONDERFUL. Original Strain.....	.35	.55	1.00	3.40	12.00
The true original type of Golden Plume which has proved so successful for many years. Stalks very large with heavy hearts and thick solid stems.					
366 GOLDEN PLUME, Upland Strain.....	.35	.55	1.00	3.40	12.00
A fine early celery of the same type as our Original Strain but grows about two inches taller. Preferred by many growers especially for upland. This is an excellent strain which we highly recommend.					
370 MASTERPIECE. Early Golden Type of High Quality.....	.40	.65	1.25	4.25	15.00
Robust early variety producing thick broad rounded stems, 8 to 9 inches long. Very crisp, fleshy and rich in flavor; practically free of strings.					

Green Varieties

363 GIANT PASCAL. Special Strain. (Late.).....	.40	.75	2.35	8.00	
Tall late green celery of good quality; one of the best for late winter market. The stalks are large, solid and blanch pure white.					
375 SALT LAKE or UTAH. The Favorite Green Celery.....	.35	.55	1.00	3.40	12.00
One of the finest kinds for fall crop and storage. The stalks are very thick, crisp and of highest quality, and the hearts are heavy and well developed. We have a fine uniform stock producing practically no soft stalks, and growers are always very enthusiastic in its praise.					
377 SUMMER PASCAL. (New.) See above.....	.40	.65	1.25	4.25	15.00

CELERIAC—Turnip-Rooted or "Knob" Celery

352 LARGE SMOOTH PRAGUE. This is the standard market garden variety, producing good size bulbs of the finest type. **Oz. 75c; ¼ lb. \$2.30; lb. \$8.00.**

SWEET CORN

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre.

Harris' Northern Grown Sweet Corn

For many years we have made a specialty of growing both hybrid and open-pollinated sweet corn seed here in the North on our own and nearby farms. Combining scientific breeding and careful selection with the greatest care in growing, drying and cleaning, we produce seed corn of the highest standard of vitality and purity. Harris' Northern grown sweet corn is the best obtainable.

130 North Star

Extra Early—Large Ears—Fine Quality (67 days)

This new Harris' hybrid introduced by us in 1941 has become one of the most widely grown early varieties in the East. It ripens only a few days after Seneca 60 yet has the same fine large ears as many later varieties, and growers everywhere praise it in glowing terms. They like its rapid and vigorous growth, the enormous yield and the large delicious ears.

The kernels are deep, creamy gold and exceptionally tender and sweet. Ears are fully 7 inches long, mostly 12 rowed, and well protected by a fine large husk which makes them most attractive. The ears sell at a premium on sight, and the wonderful flavor and tenderness brings the customers back for more.

North Star is by far the finest corn for first early crop. The hardy vigorous seed will come up even in cold weather when other varieties fail to make a stand, and it ripens early, bringing the highest prices. The yields are also much greater than other early kinds and many growers use North Star even for later plantings. This variety is resistant to wilt and is well adapted all over the East. See prices on page 13.

125 Marcross C6.13

*Early—Uniform Large Ears
Wilt Resistant (68 days)*

Popular early hybrid ripening a day or two later than North Star and noted for its remarkably uniform large ears. The stalks are short and sturdy and the ears are 12 rowed, about 7 inches long with light golden yellow kernels of very good quality.

The strain we offer is a most uniform and attractive stock, and we recommend it highly.

Completely resistant to wilt (Stewart's Disease). See prices on page 13.

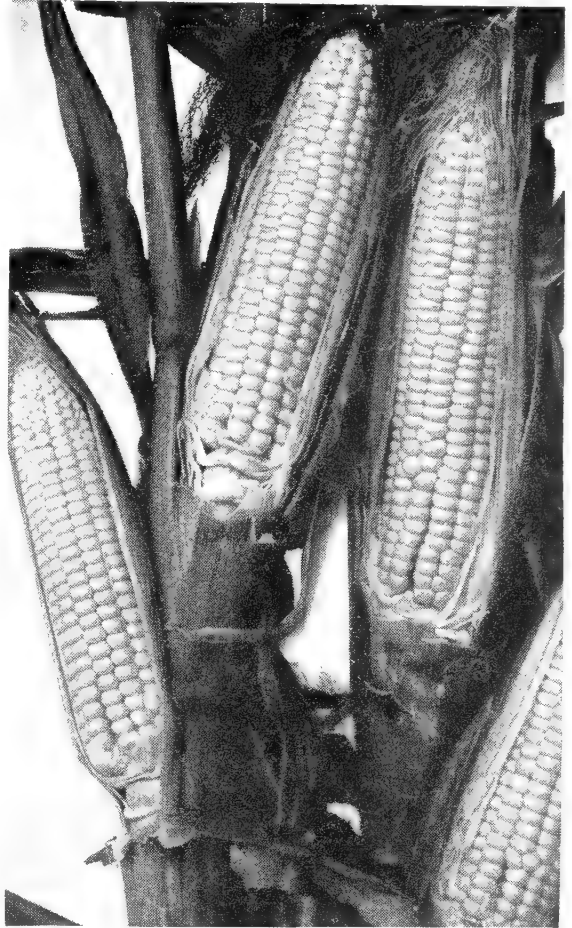

107 Carmelcross, Improved (New)

Fine for Second Early Crop (72 days)

Growers who want a large eared medium early corn of high quality are very well pleased with this new hybrid. It ripens just after Marcross, coming on at about the same time as Northern Cross, and has larger ears than either.

The plants are husky and vigorous, about 5½ feet tall and are highly resistant to bacterial wilt. The big well-filled ears have 12 to 16 rows of bright yellow kernels and are well protected by a tight heavy husk. The quality is excellent.

Our strain is the Improved Carmelcross, having longer and larger ears than the original variety, and is the best type for market gardeners. See prices on page 13.

NORTH STAR

This is our famous early hybrid, noted for fine quality and big crops.

132 Northern Cross

*An Early and Tremendous Yielding
Hybrid (73 days)*

Since its introduction by us in 1938 this hybrid has proved to be a money maker for the grower. It is a variety of great vigor with fine strong sturdy plants which will produce great crops of large even ears. There are usually two and sometimes three good ears to a plant. It is truly a tremendous yielder of fine large ears and is well suited to fill the gap between the extra early and later kinds.

These large ears are very uniform in size, usually eight inches long with 12-14 rows of bright yellow kernels. They are very attractive in appearance and of exceptionally high quality.

Caution: Northern Cross is not resistant to Stewart's Disease (wilt). See prices on page 13.

SWEET CORN—Continued on next page.

SWEET CORN—Continued

124 Lincoln

Drought Tolerant—Large Ears (81 days)

This new hybrid developed by the Connecticut Experiment Station has won an important place in many sections because of its tall sturdy plants and its ability to stand drought and adverse conditions. The plants grow 7 to 8 feet tall with very stiff stalks and practically no suckers, and they make an even more vigorous growth than Golden Cross Bantam. Resistant to wilt.

The ears are ready 3 or 4 days earlier than Golden Cross and are very large, measuring 7-8 inches. They are cylindrical, very uniform and have 12 to 16 rows of deep narrow kernels, with fine color and very good quality.

We highly recommend this popular new market variety. See prices on next page.

HYBRID SWEET CORN

Out of the large number of sweet corn varieties now on the market we have selected nine hybrids as the best to grow in the east, covering the season from extra early to late or main crop. Our hybrid corn is grown from proven pure line parents and great care is taken in detasseling the seed parent. Hybrid corn cannot be saved for seed the next year as it will break down.

NORTHERN CROSS—Nearly every stalk has two fine ears
(See description on page 11)

115 Golden Cross Bantam

The Best Main Crop Hybrid (84 days)

One of the first hybrid sweet corns to be developed, Golden Cross Bantam is still by far the best main crop type for both market and canning. Our strain has been so much improved in recent years that the seed we now offer is as close to perfection as anything we have ever seen. Widespread tests and the reports of growers in all sections prove that this stock is better than others in yield, uniformity, quality and size of ear.

The tall vigorous plants produce heavy crops ripening nearly all at one time. The ears are large (about 8 in.) and remarkably uniform in size and type. They have 12 to 14 rows of bright golden yellow kernels of supreme quality. Our stock of Golden Cross holds its tenderness and flavor better than other kinds and the handsome appearance of the ears has never been surpassed.

This variety is resistant to wilt and widely adapted all over the country. *For best results sow not more than six pounds per acre.* See prices on next page.

123 Ioana

Large Eared—Midseason—Wilt Resistant (86 days)

This outstanding hybrid has been welcomed by sweet corn growers as an exceptionally dependable large eared variety for main crop. The ears are large, slightly tapering, mostly 8 to 9 inches long with 12 to 14 rows (a few 16) of creamy yellow, medium deep kernels, which fill the ear well at the tip.

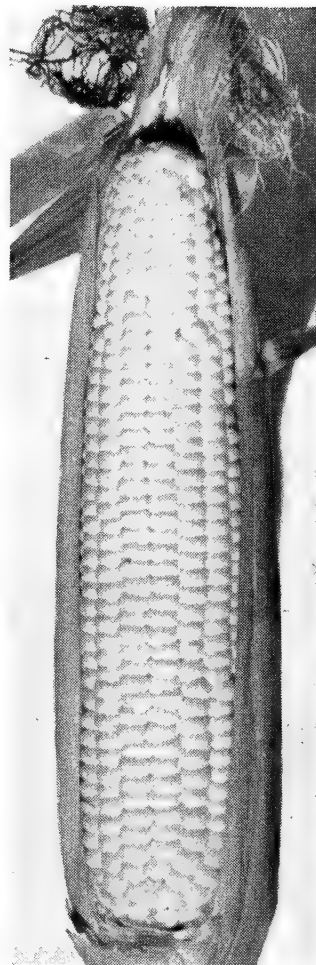

These large attractive ears are of good quality, being sweet and tender. The plant is tall and strong and is resistant to Stewart's Disease (wilt). It seems to stand drought remarkably well. In some sections where large crops of sweet corn are grown for market, some of our customers prefer it even to Golden Cross Bantam. See prices on next page.

"I hope you will be able to ship me the Golden Cross sweet corn on the enclosed order. Last year I planted it in a field with seed I bought elsewhere, and your corn outyielded the other two to one."

Arthur H. Smith, Springfield, N. J. Jan. 29, 1945.

"Your Carmelcross corn is the nicest corn I have ever grown."

Amos Zittle, Eden, N. Y. Aug. 22, 1945.

LINCOLN

120 Harris' Extra Early Bantam

Heavy Yielding—Very Early (68 days)

In spite of the growing demand for larger ears in some markets, many growers find that because of the earliness, large yield and superior quality, Harris' Extra Early Bantam is still on their "must grow" list. It is not only an extremely heavy yielder but is one of the earliest varieties, maturing ears which can be sold at high prices before the market becomes flooded.

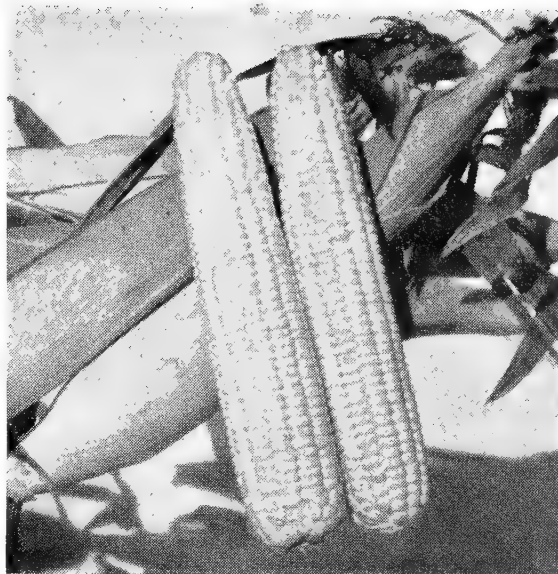

The ears resemble true 8-rowed Golden Bantam in size and shape and high quality but mature ten days earlier. They are up to 7 in. long with 8 to 10 rows of golden yellow kernels and are very uniform in size and appearance. See prices below.

141 Whipple's Yellow

Harris' Original Northern Grown Strain (77 days)

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

We have seen many other stocks of Whipple's Yellow grown in comparison with our own, and without exception ours stands head and shoulders above all the rest.

GOLDEN CROSS BANTAM

Our stock is the finest obtainable.

Every pound of this variety which we sell is grown here in the North on or near our own farm, under our supervision from our own carefully bred stock seed. See prices below.

*At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the freight charges. See also inside front cover.

25 lbs. or more of any one variety will be supplied at the 100 pound rate. Write for special prices on larger lots.

CUCUMBERS

*¼ lb. of seed will plant about 300 hills or 200 ft. of row.
It requires about 2 lbs. per acre in hills or 3 to 4 lbs. drilled.*

MARKETER CUCUMBERS

400 A & C Cucumber

The Leading Variety for Market

The long slender shape and handsome dark green color have made this one of the most popular cucumbers grown today. They are very deep green over the entire fruit, with only indistinct blossom end rays, and they hold their color well.

The cucumbers are 8 to 9 inches long, beautifully proportioned, smooth and dark green, and make a very fancy pack. The vines are healthy and produce large crops of the finest fruit. Our strain is outstanding for uniformly fine shape and color, and we recommend it highly. See prices on next page.

407 Cubit (New)

This is a smooth cylindrical cucumber with bluntly rounded ends like Straight Eight but with the deep color of A. & C.

The shiny dark green color covers the entire fruit, leaving only very indistinct rays at the blossom end. It has an exceptionally small seed cavity and the flesh is smooth, crisp and very thick. It will hold its firm fresh-looking appearance for a long time.

Under favorable conditions, Cubit produces an abundance of very handsome cucumbers—smooth, straight and round in shape. See prices on next page.

418 Harris' Double Yield

Early—The Best for Pickles

We are proud to say that our new improved strain of this famous variety is better than ever before. The yields are even greater and the perfect shape makes it ideal for small pickles.

The cucumbers are very straight with blunt ends, smooth, cylindrical, and medium deep green in color. The fine shape is carried on all sizes of fruit. (See photo.)

If the pickles are kept picked off, the vines produce astonishing crops. Young cucumbers are often produced in clusters of 3 or 4 like the fingers of your hand.

This is also the earliest variety we know and many growers use it for early slicers; it matures to slicing size two weeks earlier than other kinds. See prices on next page.

430 Marketer

New Extra Fancy, Dark Green Slicing Type

A very vigorous and prolific streamlined cucumber that is rapidly gaining popularity in the East. The smooth slender fruits are remarkably uniform and trim in appearance, and have the darkest green color of any variety, extending all the way down to the blossom end. They average 7 to 8 inches long, straight and slightly tapered at the ends, and the flesh is very thick with a small seed cavity.

The vines hold up well and give tremendous yields of these slim, elegant deep green fruit. One great advantage is that the fruit on the late pickings is just the same excellent type as on the first picking. If you want extra fancy slicers for market, grow Marketer. See prices on next page.

420 Harris' Perfection

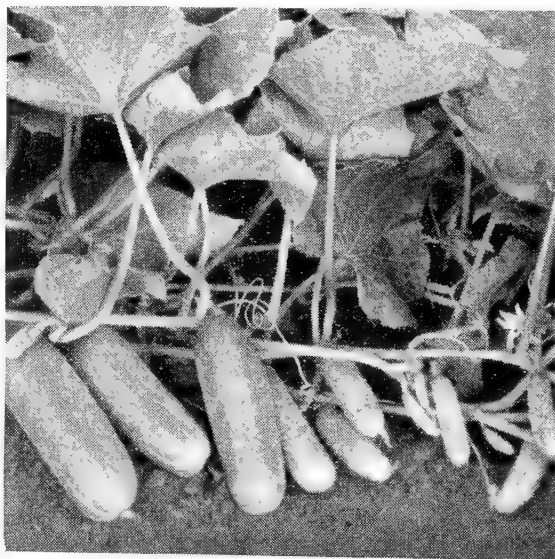

Long Green White Spine—Heavy Yields

The fruit is straight, smooth and handsome, deep green in color with small white rays at the blossom end, and retains its deep color for a long time after picking. The cucumbers will average well over eight inches long when ready for market and are just the right thickness.

We introduced this variety many years ago and it is still in great demand because of its heavy yield and fine appearance. It is well adapted for dill pickles as well as general market. See prices on next page.

"Had fine results from your seeds last year. Your Double Yield cukes are misnamed. They should be at least triple or more."

H. R. Dayton, Madawaska, Maine. Feb. 24, 1945

HARRIS DOUBLE YIELD PICKLES

Note the abundant crop and the uniform shape on all sizes of fruit.

CUCUMBERS—Continued

438 Straight Eight

An Early Prolific Long White Spine

Has become very popular among growers because of the large early yield of fine straight cucumbers. Straight Eight produces heavy crops at a time when the other kinds are only just beginning to bear. The vines continue to produce heavily throughout the season.

When ready for market the cucumbers are 8 to 9 inches long, straight, smooth and blunt ended. The color is medium green with green rays at the blossom end. We can recommend Straight Eight for a money making crop. See prices below.

425 Irondequoit Hothouse

Greenhouse Grown Seed

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved for us from perfect fruit grown under glass by an expert cucumber grower in Irondequoit. It will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green, almost entirely solid, having very few seeds. The vines are vigorous and very prolific. See prices below.

100 seeds 75c; 250 seeds \$1.75; 500 seeds \$3.25;

WITLOOF CHICORY—French Endive

386 WITLOOF CHICORY. Special Forcing Strain.

An exceptionally fine strain, especially selected to produce the highest percentage of perfect heads when forced.

Oz. 60c; ¼ lb. \$1.75; lb. \$6.00.

COLLARDS

390 GEORGIA.

Large cabbage-like leaves, which grow loosely on stems 2½-3 feet tall. Does not form heads. May be sown in spring and transplanted like cabbage or drilled in June or July. Popular in the South for table use and stock feeding.

Oz. 15c; ¼ lb. 35c; lb. \$1.00; 10 lbs. \$9.00.

"We like your seeds very much. They are of high germination and true to name. That means a lot with me. We appreciate your good fertile seeds and your promptness."

Daniel Boering, Carlisle, Pa., Dec. 26, 1944.

DANDELION

453 LARGE THICK LEAF.

Our strain is the popular thick leaf, dark green type, with strong, upright growing plants and good hearts. It is the most widely grown variety and we have a particularly fine stock.

Oz. 60c; ¼ lb. \$1.75; lb. \$6.00; 10 lbs. \$55.00.

452 ITALIAN DANDELION. (Cicoria Catalogna).

Large dark green dandelion-like leaves, which are cut several times during the season for "greens." Ours is the true stock.

Oz. 50c; ¼ lb. \$1.45; lb. \$4.50; 10 lbs. \$40.00.

DILL

458 LONG ISLAND MAMMOTH.

Is much superior to the common dill, being larger and more productive.

Oz. 15c; ¼ lb. 40c; lb. \$1.20; 10 lbs. \$11.50.

BLACK BEAUTY

EGG PLANT

An ounce of seed will produce about 2000 plants.

461 Black Beauty—Prolific Strain

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See prices below.

	Oz.	¼ lb.	lb.
461 BLACK BEAUTY. True Stock. See above.....	\$.60	\$1.75	\$6.00
463 EARLY LONG PURPLE.....	.75	2.35	8.00
Fruit 6 to 8 in. long, not over 2 to 3 in. through. Early and very prolific, dark purple.			
464 FORT MYERS MARKET.....	.70	2.00	7.00
We have an especially fine stock of this tall vigorous variety, which is well adapted in warmer growing sections and widely used for shipping from Florida. Fruit long egg-shaped and very uniform, with a beautiful glossy black color.			

465 NEW HAMPSHIRE HYBRID. Extra Early and Prolific.....	.75	2.35	8.00
Very early and especially valuable for growers who have difficulty producing egg plant profitably in the North. The medium size fruits are oval in shape and borne in great abundance on dwarf plants.			

ENDIVE

An ounce of seed will sow about 100 feet of row; 2 to 2½ lbs. per acre.

	Oz.	¼ lb.	lb.
471 DEEP HEART FRINGED. Broad fringed leaves.....	\$.25	\$.65	\$2.00
An entirely distinct type, recently introduced and very popular. Large and robust plants with broad fringed leaves and upright growth. Produces a fine deep heart when fully grown.			
478 GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed.....	.25	.65	2.00
The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.			
477 GREEN CURLED. Also called "Chicory." Green ribbed.....	.25	.65	2.00
Leaves finely cut and curled. Exceptionally uniform with a fine heavy heart.			
473 FULL HEART BATAVIAN (Escarolle). True Dark Green Strain.....	.25	.65	2.00
Our strain of this variety produces heads which are tightly packed with broad dark green leaves. The full hearts blanch to a beautiful golden color.			

French Endive—Witloof Chicory See under Chicory on page 15.

FENNEL

481 FLORENCE.

An exceptionally fine strain, producing large bulbs. Oz. 25c; ¼ lb. 75c; lb. \$2.50.

GARLIC

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 65c; 5 lbs. or more at 60c per lb. Transportation paid.

KALE

One pound of seed will sow about one acre.

487 DWARF CURLED or Blue Scotch.

We have a very superior strain, absolutely uniform, with very fine curled leaves and the much desired deep bluish green color. Plants of dwarf habit, vigorous with large leaves. ¼ lb. 90c; 1 lb. \$3.00; 10 lbs. \$29.00.

489 SIBERIAN. Also called "Early Sprouts."

Plants very large and spreading, leaves broad and thick, curled only at the edges. Color blue green. Very hardy and used largely for wintering over. ¼ lb. 60c; 1 lb. \$2.00; 10 lbs. \$19.00.

HERBS for Flavoring, Etc.

945 SUMMER SAVORY.....	.25	.45	1.50

KOHL RABI

An ounce of seed will sow about 200 feet of row.

492 EARLY WHITE VIENNA.

Round white bulbs, early. A very uniform stock. Can be used 10 weeks after sowing. Oz. 45c; ¼ lb. \$1.25; lb. \$4.00.

LEEK

An ounce of seed will sow about 200 feet of row.

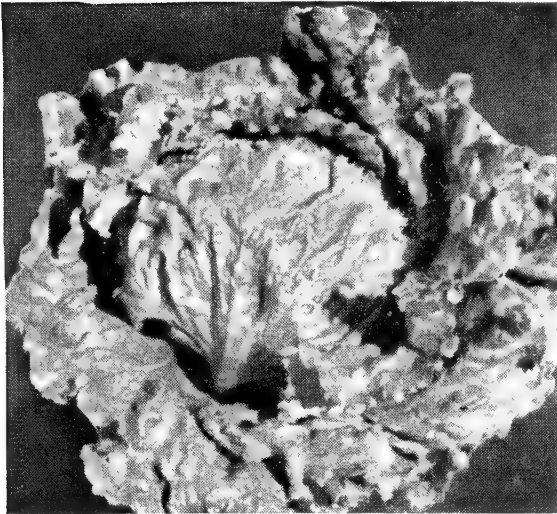

496 AMERICAN FLAG or GIANT MUSSELBURG.

The stalks are large and very sturdy. The bottoms are clear pearly white and smooth with the white part extending well up the stalk.

Oz. 60c; ¼ lb. \$1.75; lb. \$6.00.

LETTUCE

An ounce of seed will sow 250 feet of row; about 2 lbs. per acre.

IMPERIAL 44 LETTUCE

542 White Boston—Special Strain

Year after year this has proved to be a most dependable stock. One of the outstanding features of our strain is the uniform manner in which it heads, so that there is practically no waste in cutting a crop. It has proved to be more resistant to tipburn than any variety we have ever seen.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is fully equal to any strain obtainable. See prices below.

520 Great Lakes (New)

Tipburn Resistant—New Iceberg Type for Summer Growing

This new variety is remarkable for its ability to stand up and produce good hard heads even in the hot weather of midsummer. It is highly resistant to tipburn, heads nearly 100% under a wide range of conditions and stands without bolting longer than any other kind.

The plants are large and vigorous, and the heads are of good size and attractive deep green color. They have heavy ribs and crisp thick leaves that fold well over to make very solid hard heads. Planted in the spring, they are ready to cut about a week later than Imperial 44 and will remain in condition a long time thereafter.

Great Lakes is best adapted for upland growing. See prices below.

525 Imperial 44

High Quality Iceberg for Spring or Fall Crop

For early spring and fall crops, Imperial 44 is still the best Iceberg type to grow in the East, both on muck and upland. It is a sure heading, high quality lettuce, producing crops that compete successfully with western grown Iceberg.

The heads are large, well formed and solid and practically every plant makes a fine head. It has considerable resistance to tipburn and produces lettuce of very superior quality. We highly recommend Imperial 44 to all growers. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
504 BLACK SEEDED SIMPSON.	\$.20	\$.55	\$ 1.75	\$ 16.50
Widely grown loose leaf type. Broad light green leaves.				
507 Chicken.15	.45	1.50	12.50
Immense leaves. Use for green feed for chickens				
508 CORNELL 456 (New.)	Sold out	
Tipburn resistant, summer heading "Iceberg." Excellent for muck growing.				
510 COSBERG. Early, fine quality.25	.75	2.50	22.50
Small headed Iceberg type of fine quality, very crisp and tender.				
517 GRAND RAPIDS. The Most Popular Loose Leaf Type.20	.65	2.00	19.00
Excellent for outdoor as well as greenhouse growing and is used by the most critical growers. The leaves are light green, uniformly well curled.				
518 GRAND RAPIDS U. S. No. 130	.80	2.50	24.00
A distinct well curled strain which is preferred by some growers for greenhouse use, and also outdoors, as it stands longer without bolting.				
520 GREAT LAKES. (New.) See above65	1.95	6.50
525 IMPERIAL 44. See above30	.90	3.10	30.00
526 IMPERIAL 84730	.90	3.10	30.00
Known for its ability to produce fine solid heads of "Iceberg" type. Heads larger than Imperial 44 and a little later. Popular with many growers.				
530 May King. For Frame Forcing25	.75	2.50	24.00
535 NEW YORK No. 515. Improved "Iceberg" Type30	.90	3.10	30.00
Recommended for upland growing only. Very early, heads large and deep.				
542 WHITE BOSTON. Special Strain. (See above)	(100 lbs. \$175.00)	.20	.60	2.00
				19.00

Cos or Romaine Lettuce

540 TRIANON SELF-FOLDING.20	.60	2.00	19.00
The most popular variety, making large long heads of fine quality and attractive appearance. Used for forcing under glass and outdoor culture.				
514 DARK GREEN COS.20	.60	2.00	19.00
This strain has the same upright self-folding type of head as Trianon, but is not quite as tall and the leaves are of darker green color. The heads are cylindrical and very solid. Well liked for fall planting as it stands frost well.				

MUSKMELONS or Cantaloupes

An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.

Harris' Muskmelon Seed

Growing seed of early, highly productive and fine quality muskmelons for northern Market Gardeners has been one of our specialties for over twenty years. Our special strains, developed and selected here on our own farms, are now considered the standard of excellence. You can be sure that these are the best muskmelons for the North.

DELICIOUS—A spot in one of our seed fields.

560 Delicious

The Largest and Best Early Melon

One of the most profitable melons to grow for local market and roadside stands. Our special strain produces good sized, handsome, high quality melons ripening nearly two weeks before Bender's Surprise and they bring the highest prices. They are uniform in shape, moderately ribbed and well netted and the flesh is remarkably thick and delicious to eat for such an early variety. The vines make a good vigorous growth and produce tremendous yields.

They will not stand long distance shipping but the remarkable sweetness and flavor of the melons grown from our strain makes them ideal for early crop on nearby markets. See prices on next page.

569 Iroquois (New)

*Medium Size Bender Type of High Quality—
Resistant to Fusarium Wilt*

Dr. Henry Munger of Cornell University developed this new melon as a medium size Bender type with resistance to fusarium wilt, and it is the only kind that should be planted on infected soil. It has such uniformly fine quality that it has already won an important place in all sections where the smaller type of Bender melon is preferred.

The fruits are round to oval in shape with prominent ribs and good netting; the rind is tough and holds up well. The fine textured thick flesh is deep orange in color and has consistently high flavor and unusual sweetness. Iroquois ripens about in season with Bender's and the vines make a vigorous healthy growth, producing good yields of these fine melons. See prices on next page.

HOTENTS for Melons

These large strong field forcers are ideal for vine crops such as melons and cucumbers. Economical and practical. Used by successful growers everywhere. See Inside Back Cover.

558 Bender's Surprise

Harris' Special Northern Grown Strain

This is still the leading large melon for the East, and our strain has no equal for combined large size, attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for over twenty years here on our own farm always paying special attention to high quality, earliness and trueness of type. This careful selection has made ours the one outstanding stock of this variety. See prices on next page.

570 Market King

This melon is remarkable for its uniform sweetness and high flavor at all times and for this reason alone many growers are changing to Market King each year. The melons are medium size, grow very evenly, and are heavily netted. They are oval in shape without deep ribs and the flesh is very thick with a small seed cavity, deep orange in color and of fine texture. Skin color is blue-grey, ripening to deep yellow.

The healthy vigorous vines produce big crops of uniformly fine fruit, coming on several days later than Bender's Surprise. See prices on next page.

IROQUOIS—Thick flesh and fine flavor.

MUSKMELONS—Continued

	Oz.	¼ lb.	lb.	10 lb.
558 BENDER'S SURPRISE. Harris' Special Strain. See preceding page	\$.45	\$1.30	\$4.00	\$37.50
560 DELICIOUS. The Earliest Large Melon. See preceding page45	1.30	4.00	37.50
566 Hearts of Gold. (Large strain.) A fine melon for shipping, medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. Our stock is the large strain of this well known variety.	.25	.75	2.50	22.50
568 HONEY ROCK or SUGAR ROCK. We have a fine stock of this popular melon which is largely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling. The melons are nearly round, about 5" in diameter.	.25	.75	2.50	22.50
569 IROQUOIS. (New.) Resistant Medium Size Bender Type. See preceding page60	1.80	6.00
570 MARKET KING. See preceding page45	1.30
572 QUEEN OF COLORADO or Pride of Wisconsin. Similar to A & C, Jersey Gold, etc. Fruit medium size, oval shape with shallow ribs and good netting. Flesh thick and fine flavored. This is a true, heavy yielding stock which we recommend highly.	.30	.90	2.75	25.00

WATERMELONS

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

582 Honey Cream (New)—Fine for the North—Very Sweet—Yellow Flesh

A new extra early variety of the highest quality having distinctive yellow or cream colored flesh. Fruit medium sized, nearly round and attractively striped like Dixie Queen. Not a shipping type but on roadside stands where the exceptional sweetness and fine flavor can become known, it will have a real demand. Ripens as early as a Bender melon and the yields in Northern sections are excellent. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
581 DIXIE QUEEN. Early and very productive. Skin light green with darker stripes. Flesh deep pink, of fine quality. Stands up well for shipping and an excellent kind for local market or shipping. True stock.	\$.25	\$.75	\$2.25	\$21.50
582 HONEY CREAM. See above45	1.30	4.00	37.50
585 STONE MOUNTAIN. Large, oval somewhat flattened ends. Fine quality and prolific.	.15	.45	1.50	14.00
588 WINTER QUEEN. White Skin—Long Keeper15	.45	1.50	14.00
591 WONDER MELON. The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even when the seasons are short.	.15	.45	1.50	14.00
580 GREEN CITRON or Colorado Preserving. Not a true watermelon, outer flesh is used in preserving. Very prolific. Green seeded.	.15	.40	1.25	11.50

MUSHROOM SPAWN

Full directions for growing are sent with each order of spawn.

BOTTLE SPAWN. (White.) Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. Ours is the finest pure culture spawn grown by one of the largest mushroom producers. One carton will spawn 40 sq. ft. of bed.

Price: Single Carton \$1.35; 3 cartons \$3.45 Postpaid. Not prepaid: 10 or more cartons at 90c per carton. (Weight per carton about 1 lb.) Write for prices on larger quantities.

MUSTARD

An ounce of seed will sow about 300 feet of row.

	Oz.	¼ lb.	lb.	10 lb.
594 FORDHOOK FANCY. (Long Standing) Leaves are slightly smaller and more finely cut and curled than the Southern Curled. A very pure stock.	\$.20	\$1.55	\$1.65	\$15.00
595 LONG STANDING. (Southern Curled) Will stand without bolting to seed for a long time. During the hottest part of the summer this variety has stood for three weeks after it was large enough to cut, without going to seed. The leaves are a medium dark green with beautiful finely curled edges.	.15	.45	1.50	14.00

OKRA or Gumbo

An ounce of seed will sow about 50 feet of row.

597 PERKINS' LONG-POD. The Standard Market Variety. Large green pods. Ours is a true uniform stock.

Oz. 15c; ¼ lb. 30c; 1 lb. 90c.

ONIONS

An ounce of seed will sow 125 feet of row. It requires 5 to 6 lbs. of seed per acre.

Mr. C. J. Vander Poest of Elba, N. Y. and his son show some fine onions from their crop of Early Yellow Globe.

605 Early Yellow Globe

The Best Early Yellow Onion

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities have made this variety the leading early onion both for upland and muck. It is now by far the most widely planted variety in the east.

The onions mature two weeks before Brigham Yellow Globe, are nearly globe shaped, deep yellow in color and with a good skin. They keep well and they yield big crops under a wide range of conditions. Year after year, Early Yellow Globe produces the largest crops of fine onions.

We are pleased to offer our customers the same fine stock of Early Yellow Globe which has been so satisfactory for the past ten years. See prices on next page.

600 Brigham Yellow Globe

Also called "Michigan Onion" and "Michigan Strain"—The Best Variety for Storage

This remarkable onion together with Early Yellow Globe has practically taken the place of all other kinds in the East and Middle West. It is not only grown extensively on muck but is also a very popular upland variety.

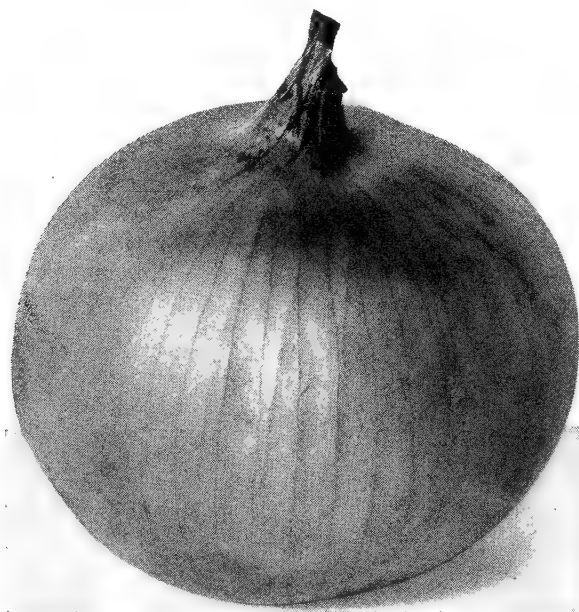

It is outstanding because of the large yields obtained, the fine rich golden color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the *true Brigham Strain*, deep globe in shape and even more uniform for type and size than it was when first introduced. See prices on next page.

EARLY YELLOW GLOBE

Use DDT to control onion thrip! Keeps the tops green for bunching and increases the crop of dry onions. See DDT on page 48.

SWEET SPANISH—Utah Strain

620 Sweet Spanish—Utah Strain

Large Mild Sweet Onions of Finest Quality

This fine large onion can be grown almost anywhere in the East and is becoming more popular each year. It is an excellent variety both for upland and muck. The onions are large and handsome often weighing a pound or more and are fine keepers.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse growing conditions better than any other kind we know. They are also definitely resistant to injury by thrips.

Our strain is particularly fine for uniformity of shape, small necks and consistently high yields. It produces big deep globe shape onions with a heavy golden brown skin, and the flesh is white, sweet and very mild. We highly recommend this stock to our customers. See prices on next page.

HARRIS ONION SETS

We offer the finest clean uniform onion sets obtainable. They are firm, carefully graded, true to name and will produce the best crops. See ONION SETS on next page.

626 WHITE SWEET SPANISH. The largest and mildest white onion. Deep globe shape, small necks, very clear skin and firm white flesh. Has rapid vigorous growth and is widely used for bunching as well as mature bulbs.	.60	1.90	6.50	62.50
628 Yellow Globe Danvers.45	1.30	4.35	42.00	400.00

ONION SETS

12 to 20 bushels of onion sets are required to plant an acre.

EBENEZER. The Best Yellow Sets. Flattened bulbs, very uniform. Mature early and keep well.

Bu. (32 lbs.) \$4.50; 2 Bu. \$8.50. 10 bu. or more at \$4.00 per bu. Purchaser pays transportation.

WHITE or Silverskin. Best for Bunching. Medium sized onions of flat shape. Clear white, fine appearance.

Bu. (32 lbs.) \$5.00; 2 Bu. \$9.50. 10 bu. or more at \$4.50 per bu. Purchaser pays transportation.

Please note: Orders for onion sets may be entered at any time. They will be shipped as soon as we feel that the danger of freezing is past.

ONION PLANTS

Sweet Spanish—Utah Strain

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. When set in the spring, they will produce large firm onions of the finest type in 8 to 10 weeks.

Each year more gardeners find it profitable to grow onions from our plants, and our sales have steadily and rapidly increased. Experience has shown that Sweet Spanish is the only satisfactory kind, so we do not offer any other variety.

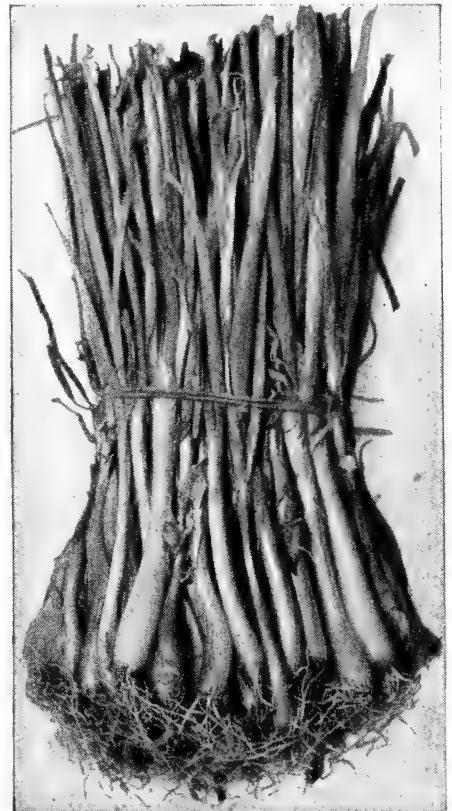

Please note: Onion plants are sold on the basis of bunches only. In Texas they are pulled by the handful, and each handful is called a bunch. 60 of the bunches are packed in a crate and shipped to us. The number of plants in a bunch usually runs from 50 to 110 or more depending largely on the size of the plants, and it is impossible for us to specify the number of plants in a bunch.

Shipping onion plants: In order to supply onion plants to our customers in the very best condition, we have arranged for a special car-lot shipment from Texas during the latter part of April. Orders will be filled and shipped immediately on receipt of the plants here. If necessary they can be held in good shape for some time by spreading in a cool dry place.

For those who must have their plants considerably earlier or later, we will also have some plants about April 15th and more again about May 10th.

On large quantities (3 crates or more) we can also quote special prices f.o.b. Texas shipping point for direct shipment to you. Please write.

Price: 10 bunches \$3.00 postpaid. Not prepaid, full crate (60 bunches) \$9.50. (Weight about 30 lbs. per crate.)

A Single Bunch of Our Sweet Spanish Onion Plants

PEAS

One pound of peas will plant 100 feet of row. Two to five bushels per acre.

*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

195 World's Record

The Earliest Large Podded Pea

Earliness, fine quality, large pods, heavy yield—these are the reasons why World's Record is so tremendously popular today. Without question it is recognized by the best growers as the most profitable for their early crops. The pods are large and attractive, 3 to 4 inches long, pointed, medium dark green and contain large peas of the finest flavor.

The vines are usually about 2½ feet high, sturdy and bear large crops which are ready over a short period of time. We offer an exceptionally dependable early stock of this popular variety which we can recommend highly. See prices on next page.

190 Thomas Laxton

This old favorite is always popular and is still one of the largest selling kinds because of its dependable yields and excellent quality. The pods are medium size (about 3 in.) with blunt ends, and are closely packed with sweet tender, delicious peas. They ripen very early, only a few days after the earliest kinds and are most profitable for early crop.

Ours is an excellent strain of the true type and very heavy yielding, so that this variety frequently outyields many of the larger podded types. See prices on next page.

160 Greater Progress (New)

Large Dark Green Pods

As the name implies, this is an improved Laxton's Progress, ripening with us about two days earlier, and bearing more uniformly large pods and a heavier yield.

The vines are not tall, only about 18", but they are husky and literally loaded with large well filled deep green pods (4-4½ in.). They ripen only a few days after World's Record and they mature evenly over a very short period. The pods are all of the same uniform large size giving a most handsome appearance when picked for market. See prices below.

165 Laxton's Progress

Large Podded—Medium Early

We offer a very superior stock of this excellent variety which is still one of the best kinds to grow. Our strain produces heavy yields of large handsome pods with great regularity.

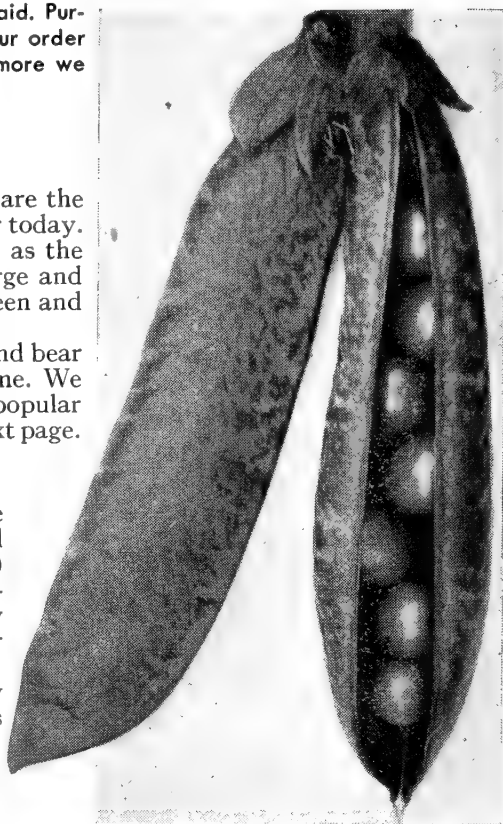

The vines grow 15 to 18 in. high and produce an abundance of large dark green pods about 4" in length. The peas ripen so uniformly that ordinarily two pickings will clean up the crop. These handsome, well filled pods always find a ready sale. See prices below.

Early Varieties*

25 lbs. or more of one variety will be supplied at the 100 lb. rate. 1 bu. weighs 56 lbs.

	1 lb.	7½ lb.	15 lb.	56 lb.	100 lb.
158 GRADUS, or Prosperity. (2½ ft.) Early.....	\$.40	\$2.05	\$3.75	\$12.30	\$22.00

170 LITTLE MARVEL. (15 in.) Larger-Podded Strain.....	.40	2.05	3.75	12.30	22.00

This is a new strain with broader pods and bigger peas. Pods well-filled, excellent quality. Vines stocky and very prolific.

WORLD'S RECORD PEAS
Early, prolific, large podded type.

SPERGON for Peas

By far the best seed treatment. Greatly improves stands and increases yields. Protects against rotting in cold wet weather. 2 oz. treats 1 bu. of peas.

2 oz. 45c; 1 lb. \$2.50; 5 lb. \$10.50 prepaid.

180 Midseason Giant

(Giant Stride, Wyoming Wonder, etc.)

This variety is the best of the large podded mid-season group. It comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are very large (4½ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high. See prices on next page.

152 ALDERMAN. (4½ to 6 ft.) Dark Podded.40	2.05	3.75	12.30	22.00
Larger pods and better yielder than the old Telephone. This is the best pea in the Telephone class. Pods are 5 to 6 in. long and of a deep green color. Our stock of Alderman is very superior.					
155 DWARF ALDERMAN. (2 ft.) Large Pods.40	2.05	3.75	12.30	22.00
Large dark green pointed pods (4½ to 5 in.) ready same time as Alderman. Vines sturdy and produce immense crops.					
168 LINCOLN. (2½ ft.) Finest Quality.40	2.10	3.90	12.90	23.00
Long narrow pods completely filled with 8 to 9 peas of superb quality. Produces immense crops which are very easily picked. One of the earliest of the Midseason group and a fine variety which we recommend highly.					
180 MIDSEASON GIANT. (2 ft.) See preceding page.40	2.05	3.75	12.30	22.00
185 ROGERS GILBO. (24 in.) Large Pods.40	2.05	3.75	12.30	22.00
One of the best of the Midseason group. Produces heavy yields of long attractive pods, 4½ to 5 in., dark green, pointed and well filled. We recommend this variety very highly.					

PARSLEY

An ounce of seed will sow about 200 feet of row.

	Oz.	¼ lb.	lb.	10 lb.
631 CHAMPION, or Triple Moss Curled.	\$.15	\$.45	\$1.30	\$12.00
This is a very superior strain. Although not quite as finely curled as Paramount, it is an early, rapid growing stock which will produce an abundance of fine parsley and give satisfaction wherever used.				
635 PARAMOUNT. Finest Curled. The outstanding Parsley.20	.50	1.35	12.50
We consider this the best strain of parsley obtainable. The leaves are all very finely curled, absolutely uniform and rich deep green in color. Dwarf growth but with stems of good length. It is ideal for forcing and muck growing and also excellent for upland.				
637 PERFECTION. Early. Extra Fine Curled.20	.55	1.65	15.50
An excellent variety which grows more vigorously and rapidly than Paramount and has longer stems. The leaves are beautifully cut and curled, and uniform dark emerald green in color. Highly recommended.				
638 Plain Leaf.15	.45	1.30	12.00
Large flat leaves, not curled. Used for flavoring.				

Parsley for Roots

633 HAMBURG (Heimisher). Parsnip Rooted. Selected Stock.15	.45	1.30	12.00
The roots are up to 8 in. long, parsnip-shaped, smooth and white. We have a very fine stock of this variety, which produces long, straight, thick roots.				

PARSNIPS

An ounce will sow 150 feet of row.
2½ to 3 lbs. per acre.

640 Harris' Model

The Whitest Parsnips

These are smooth, snow white, hollow crown parsnips, with a minimum of side roots or prongs. They are of good length, but not too long and their smoothness is quite remarkable, giving the roots a very attractive appearance so that they usually sell for top prices.

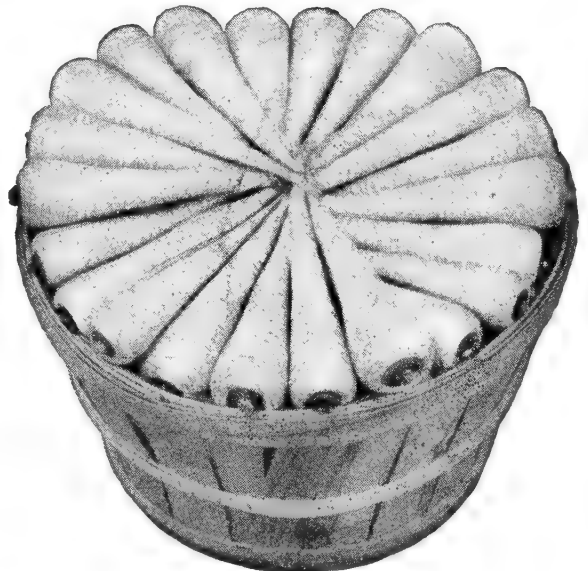

There is no better parsnip than "Harris' Model." Seed of our own growing from carefully selected transplanted roots.

Oz. 20c; ¼ lb. 60c; 1 lb. \$1.75; 10 lb. \$16.00; 100 lb. \$150.00.

642 Long Hollow Crown

Better than most stocks. Long smooth roots, not quite as uniform or white as Model.

Oz. 20c; ¼ lb. 55c; 1 lb. \$1.55; 10 lb. \$14.00; 100 lb. \$125.00.

HARRIS MODEL

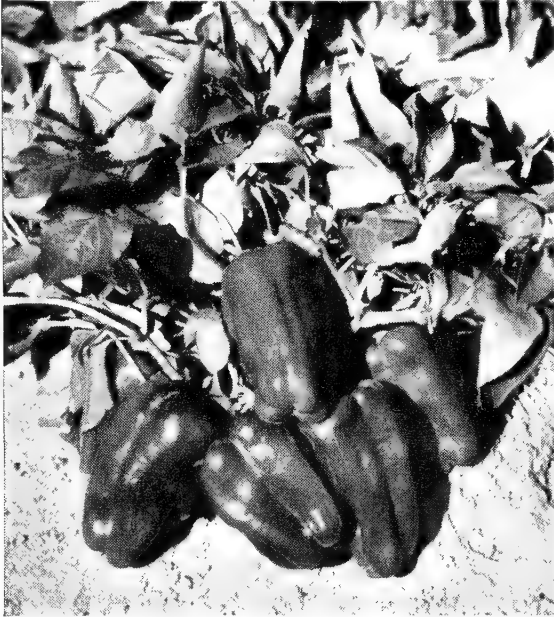

Note the smooth, even shape and the remarkable uniformity of these parsnips.

PEPPERS

An ounce of seed will produce about 1000 plants.

Harris' Northern Grown Pepper Seed

If you want to make peppers a profitable crop here in the North, use Harris' Northern Grown Pepper Seed. We have specialized for over twenty years in growing peppers on our farm. Years ago we found out that the varieties which are usually grown in the long seasons and warmer climates farther south did not ripen enough fruit to make peppers profitable in the North. So we developed a number of *early, heavy bearing varieties*, which are suited to our conditions and will produce an abundance of ripe fruit wherever the seasons are short.

HARRIS' KING OF THE NORTH

Our special strain is famous for earliness, large fruit and tremendous yields.

665 Harris' Wonder

Early-Prolific-Thick Meat

Without sacrificing any of the earliness or heavy yields which have made this pepper the outstanding variety for the North, we have improved the size and uniformly fine shape by pure line selection. The fruits are even more uniform and handsome than before.

Harris' Wonder is a very smooth, thick fleshed California Wonder type which will give you not only enormous crops of green peppers but an abundance of ripe fruit before frost.

The peppers are large, chunky and beautiful dark green turning to rich red when ripe. They are very thick meated and the quality is excellent. A level bushel weighs over 30 lbs. See prices on next page.

656 Calwonder—Early

This variety ripens at least a week earlier than California Wonder and produces heavy crops of fine large blocky fruit of the same type as that variety. The peppers are 3 and 4 lobed, large, fairly smooth with thick flesh.

The plants are dwarf and very sturdy and they produce big heavy peppers in great abundance. Calwonder is well adapted for shorter seasons and is very popular in New England and many other sections. *Crop short.* See prices on next page.

663 Harris' King of the North

Since we introduced this variety ten years ago, it has earned a reputation of producing greater yields of large peppers here in the North than any variety grown. The plants are medium size, branching and literally covered with immense fruit. The photo on the left shows the shape, size and enormous yield per plant.

The peppers are dark green in color, turning to a rich deep red when ripe. The flesh is firm, mild and sweet.

Harris' Northern grown seed of this variety is by far the best strain obtainable. Do not take chances with inferior seed, but buy direct from us and get the true original early strain. See prices on next page.

660 Harris' Earliest

This extra early pepper produces ripe fruit before any other kind. The plants are dwarf but amazingly prolific and the small peppers turn bright red very quickly. It is profitable for first early crop in many sections and especially valuable for extreme northern areas where other peppers will not ripen. See prices on next page.

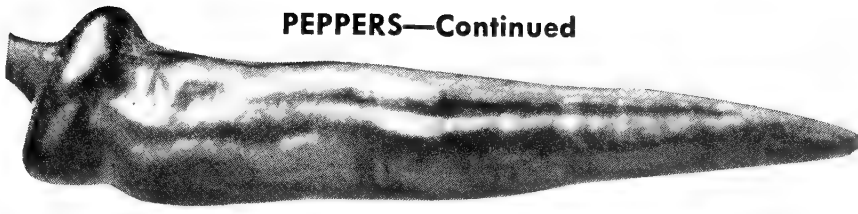

HARRIS' WONDER PEPPERS

Famous for big yields and uniform blocky shape.

652 California Wonder

We offer a very superior stock of this fine pepper, which is so widely grown by market gardeners in all sections. The plants are of strong sturdy character and very prolific, bearing large crops of fine big peppers. The peppers are of the true California Wonder type, smooth and heavy, having very thick flesh. We are sure you will like this stock. See prices on next page.

PEPPERS—Continued

HOT PORTUGAL

662 Harris' Improved Squash

Replaces the old types called Squash, Cheese or Sunnybrook

This special strain is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the North. The fruit is the true "Squash" shape, with very thick, mild, sweet flesh. These peppers are also known as "Pimientos" and are used for canning whole in some sections. Seed of our own growing. See prices below.

670 Hot Portugal

The Finest Large Hot Pepper—Seed of our own growing

If you want lots of large, long *hot* peppers, grow this kind. The fruit is long, pointed and quite smooth for a pepper of this type. They normally average six inches or over in length and are borne profusely on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne. The seed we offer was grown by us on our own farms and is a very true, heavy yielding stock. See prices below.

	Oz.	¼ lb.	lb.
652 CALIFORNIA WONDER. Thick flesh. True Stock. See preceding page.....	\$.80	\$2.40	\$8.00

668 HEIFER HORN. (Hot) Private Stock.....	.70	2.10	7.00
One of the largest and best hot peppers and has now replaced the old Giant Cayenne. This is a special market gardeners' stock, and is notable for its heavy early yields. We recommend it highly.			
670 HOT PORTUGAL. Large Hot. See above70	2.10	7.00
672 HUNGARIAN WAX. (Hot) Long Type.....	.75	2.20	7.50
The peppers are 4 to 4½ in. long by 1½ in. at the stem end and pointed. Waxy yellow when young, turning red when ripe. Very hot. Ours is a fine, even stock.			
674 LARGE RED CHERRY. (Hot) Small Round Fruit. Late.....	.70	2.10	7.00
676 OSHKOSH. The Largest and Best Yellow Pepper.....	.70	2.10	7.00
677 ROUMANIAN WAX. Early, Large Fruit, Semi-Sweet.....	Crop Failed
Attractive waxy yellow peppers, turning brilliant red when fully ripe. 4 to 5 in. long and 2½ in. broad, pointed or tapering. Flesh sweet with ribs pungent. Very early and prolific.			
681 WORLDBEATER, EARLY STRAIN. (NEW) Large and Prolific.....	.75	2.20	7.50
This splendid new strain enables growers to get fine large Worldbeater peppers in Northern sections, as it ripens earlier than the regular stocks. The fruits are very large, long and thick fleshed; the vines are husky and remarkably prolific. A most uniform and attractive stock, which we recommend highly.			

PUMPKINS

An ounce of seed will plant 20 hills; about 3 lbs. to the acre.

	Oz.	¼ lb.	lb.	10 lb.
686 CONNECTICUT FIELD or Big Tom.....	\$.15	\$.45	\$1.30	\$12.00

This improved strain has netted deep orange skin and orange yellow flesh. A very uniform stock.				
695 SMALL SUGAR or Pie Pumpkin.....	.20	.45	1.40	13.00
The most popular variety for market. Small round, deep orange and of excellent quality. Early and prolific.				

"I have been more than well pleased with Harris seeds and my plant customers have been pleased with plants from Harris seeds."

Quinten Eiler, Argos, Indiana. April 5, 1945

"I would like to state that I have had better results with your seeds this season than any I ever used before, so don't forget to send me a new catalog when it is issued."

Ralph L. Basom, Wooster, Ohio. Sept. 12, 1945

RADISH

$\frac{1}{4}$ lb of seed will sow about 300 ft. of row.

705 Cavalier

Short Top Scarlet Globe

The short tops, brilliant deep scarlet color, beautiful shape and ability to stand a long time make this the best forcing type we have ever seen. These radishes are firm and solid, of the true olive shape and unusually uniform for type. It is often possible to pull practically 100% of number one radishes. It is also especially good on muck soils.

Growers everywhere are most enthusiastic over it and many of them tell us that these radishes sell for the best prices even when the market is slow. See prices on next page.

716 Early Scarlet Globe—Special Strain

This is a very fine short top strain, equally valuable for forcing and for outdoor growing, especially on muck. The small tops are ideal for bunching and the olive-shaped roots are rich bright scarlet color. The flesh is clear white and firm. A very uniform stock which we can recommend highly. See prices on next page.

707 Comet

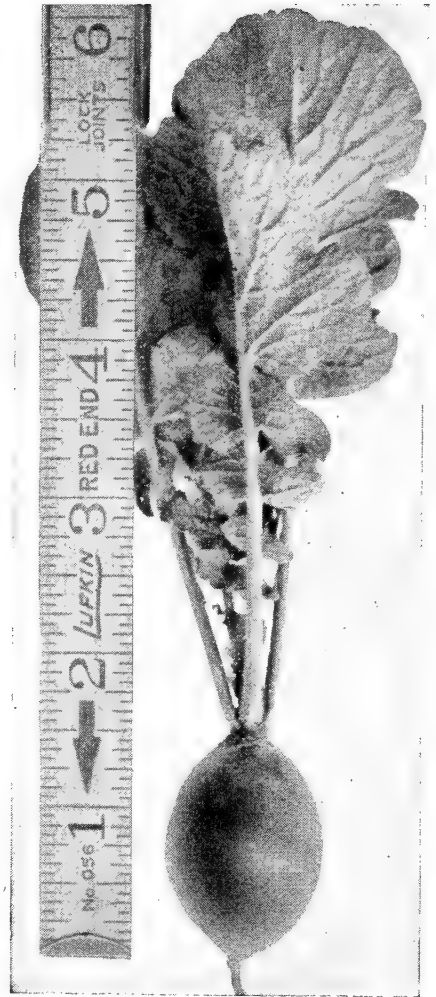

Long Standing Round

The best for late spring and summer planting as it will stay crisp and solid in warm weather when other kinds become pithy. It grows larger than the regular Early Scarlet Globe types and has a bright scarlet color. The shape is round with fine tap roots and the radishes are very attractive. See prices on next page.

ICICLE RADISHES

Please Be Sure
Your Name and
Address Are on
the Order Sheet

CAVALIER

715 Early Scarlet Globe

Long Island Strain

Medium Topped—Ideal for Outdoors

This excellent radish has become extremely popular among critical market growers in many sections because of its quick growth and uniformly fine type. It is a medium topped strain, and forms even solid bulbs of brilliant scarlet color with crisp white flesh. In general the shape is more rounded than Cavalier.

Our "Long Island Strain" is one of the best radishes obtainable for outdoor sowing, especially where the rounder shape is preferred. See prices on next page.

725 Icicle Radish (White)

Short-Topped Strain—Also Called Pearl Forcing

This is an ideal stock of Icicle Radish, both for forcing and outdoors and can also be grown successfully on muck. It is so much superior to ordinary stocks of Icicle that there is no comparison. The radishes are uniformly smooth and clear white. The tops do not grow too long in the green-houses or frames, but are long enough for bunching when grown outdoors.

This stock is the same fine true short-topped strain that we have sold for years, and we have yet to see anything that will equal it. See prices on next page.

RADISHES—Continued

25 lbs. or more of any one variety will be supplied at the 100 lb. rate.

	$\frac{1}{4}$ lb.	lb.	10 lb.	100 lb.

Large late white radish.				

Winter Radish

Sow in August and store in moist sand for winter.

701 BLACK SPANISH TURNIP.35	1.10	10.50
Roots are round or turnip shaped and grow very uniform in shape and size. Clear white flesh, skin deep black without white streaks.				

RHUBARB or Pie Plant

MacDonald Rhubarb Roots

We have an exceptionally fine lot of roots of the now famous MacDonald Rhubarb. This variety is by far the best and most widely grown red rhubarb.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink and of excellent flavor. Market growers find this rhubarb sells readily at the highest prices.

We have not succeeded in producing this variety from seed.

Strong roots divisions: 25 roots—\$7.50; 100—\$25.00. Purchaser pays transportation. (Weight about $1\frac{1}{2}$ lbs. each.)

SALSIFY or Vegetable Oyster

$\frac{1}{4}$ lb. of seed will sow about 400 feet of row.

740 MAMMOTH SANDWICH ISLAND.

The largest and best variety. Long tapering, fleshy roots with but few side shoots.

$\frac{1}{4}$ lb. \$1.20; lb. \$4.00; 10 lbs. \$38.00.

SORREL

$\frac{1}{4}$ lb. of seed will sow about 1000 feet of row.

745 NARROW LEAVED. Special Strain.

This is the best variety for market, producing long slender bright green leaves.

$\frac{1}{4}$ lb. \$1.90; lb. \$6.00.

SWISS CHARD

$\frac{1}{4}$ lb. will sow about 250 ft. of row.

830 Fordhook Giant

Best for Market

This is the most popular variety. The leaves are large, thick, heavily crumpled and very dark green. The stems are broad, thick and white. A very uniform type.

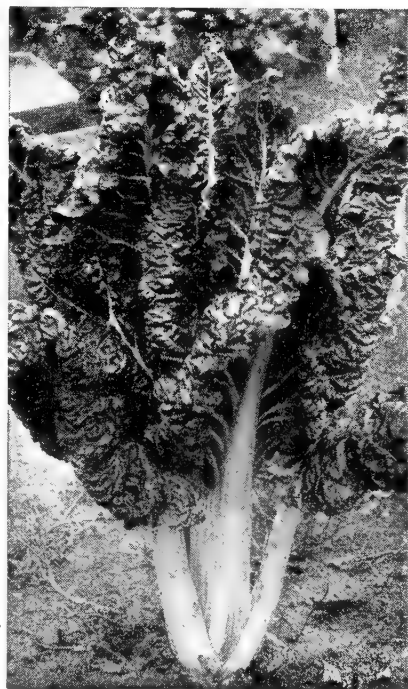

$\frac{1}{4}$ lb. 45c; lb. \$1.35; 10 lbs. \$12.50.

834 LUCULLUS. Very popular light green type. Grows upright with heavily "Savoyed" leaves of fine quality. Stems long thick and nearly white.

$\frac{1}{4}$ lb. 45c; lb. \$1.35; 10 lbs. \$12.50.

836 SILVER LEAF. Broad white ribs and smooth dark green leaves, very glossy and attractive.

$\frac{1}{4}$ lb. 40c; lb. \$1.25; 10 lbs. \$11.50.

FORDHOOK GIANT

The best kind for market.

SUMMER SQUASH

¼ lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed per acre.

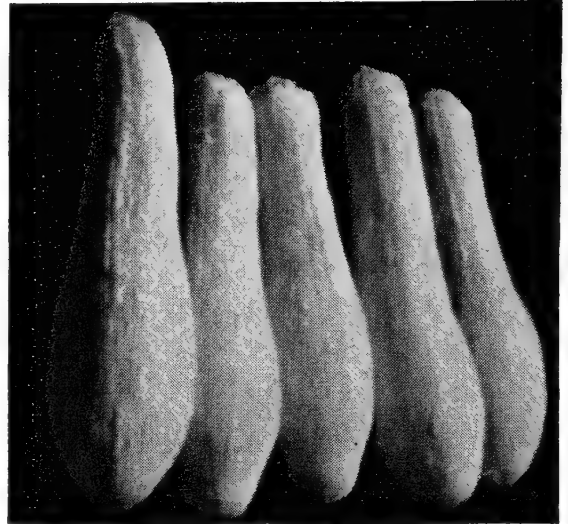

825 Yankee Hybrid

Enormous Early Yields

Yankee Hybrid is now our most popular Summer Squash. Usually it is ready to pick several days before Early Yellow Prolific, and the first pickings often average twice as many marketable fruits. Records also show that the total yield for the season is greater.

The squash are of the finest type, extremely uniform and with straight thick necks. The skin is slightly roughened and of a glowing waxy yellow color that makes them very attractive. There is practically no green color even when very young.

We offer only first generation Hybrid seed, grown directly from pure line inbreds. This is a difficult process but is essential to get the maximum earliness, vigor and uniformity. See prices below.

YANKEE HYBRID

795 Harris' Improved Cocozelle

Long Slender Straight Fruit

This is the long, slender, straight type of Cocozelle which critical squash growers have long been looking for. Developed and grown entirely by us on our own farm, this new strain will produce longer, more slender and more uniform fruits than any other strain of Italian Vegetable Marrow or Cocozelle, and makes a very fancy pack. The squash are even throughout the length and carry the desired dark green base color with stripes of lighter green. The plants are of the true bush type and very prolific. Be sure to grow this new kind. See prices below.

EARLY YELLOW PROLIFIC

These smooth handsome fruit bring top prices.

785 Early Yellow Prolific

Uniform and Attractive

This is now definitely established as one of the finest and most widely grown varieties. It is a tremendous improvement over the old Giant Straightneck squash, and the dwarf vines bear great crops of beautiful smooth fruit. These squash are very uniform for shape and size and are remarkable for their smooth skin and clear bright yellow color, having no trace of green even when very young.

We have grown a fine crop of seed on our own farm and can assure our customers that no better stock of this variety can be obtained. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
776 DARK GREEN ZUCCHINI. Special Long Strain.....	\$.20	\$.60	\$2.00	\$17.50
This is a very superior strain with uniformly long dark green fruit, entirely without light grey fruit or light stripes. Exactly what is wanted.				
785 EARLY YELLOW PROLIFIC. See above.....	.20	.55	1.75	15.00
788 GIANT SUMMER STRAIGHTNECK. Butter Yellow.....	.20	.55	1.75	15.00
This popular strain fills the demand for a large summer squash of clear butter yellow color. The fruits are smooth, bright and attractive and the vines are large and prolific.				
795 HARRIS' IMPROVED COCOZELLE. (New.) See above.....	.25	.70	2.25	21.00
803 ITALIAN VEGETABLE MARROW. (Cocozelle).....	.20	.55	1.75	15.00
This is the same stock which we have sold for years. Produces mottled dark green fruit of good length. Bush vines.				
807 MAMMOTH WHITE BUSH SCALLOP. Also called "Cymling".....	.20	.55	1.75	15.00
The popular type, producing large yields of thick creamy white, well scalloped fruit. Bush vines.				
825 YANKEE HYBRID. Extra Early, Heavy Yields. See above.....	.55	1.60	5.50	50.00

WINTER SQUASH

$\frac{1}{4}$ lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

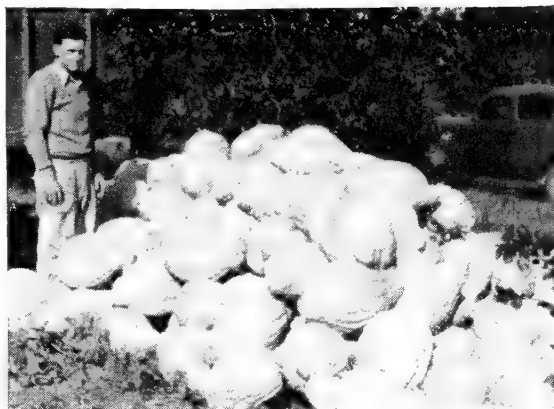

770 Blue Hubbard

Harris' Famous Selected Strain

This is our special large rugged strain that produces immense yields of big well-shaped squash and brings the highest prices. The fruits are uniformly heavy with thick flesh, and keep well in storage.

Our strain is the result of years of careful breeding here on our own farms, and is generally recognized as the finest, purest stock grown. The seed we sell is all of our own growing and cannot be obtained elsewhere.

Blue Hubbard is now in good demand on nearly all markets in the East and the fine quality, enormous yields and excellent keeping quality of our famous strain make it the most profitable squash to grow. See prices below.

HARRIS' BLUE HUBBARD SQUASH

810 Quality

The Finest Small Market Squash

Quality squash cannot be excelled to meet the ever increasing demand for a small to medium size squash of superior quality at roadside stands and markets.

The squash are dark olive green in color, 7 to 9 inches in diameter, and of an attractive heart shape which gives extra thickness of flesh at the shoulders. The flesh is firm, thick and of the finest quality, being dry and sweet. Once they try it customers always come back for more of this kind.

The large vigorous vines produce heavy crops

of uniform fruit and they keep very well in storage. It is our candid opinion that if you do not grow this kind you are missing a good thing. Seed of our own growing. See prices below.

815 Royal Acorn

The demand for this large size Table Queen squash is growing by leaps and bounds because growers find it the most profitable kind to grow. The fruit have the true pointed acorn shape but are larger than the regular Table Queen, measuring about 6-7 in. long and 5 in. across. There is always a ready market for these attractive dark green squash and the big vines yield tremendous crops. See prices below.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
770 BLUE HUBBARD. Selected Strain. See above.40	\$1.10	\$3.25	\$30.00
772 Boston Marrow20	.50	1.50	14.00
Popular fall squash, deep orange color. Used principally for canning and pies.				
773 BUTTERCUP. Finest Quality40	1.10	3.25	30.00
This fine small squash has excellent quality and exceptionally thick sweet flesh and has become very popular for roadside stands and local markets. The shape is rather flat with a distinctive "button."				
774 BUTTERNUT. (NEW.) Special Stock80	2.40	8.00
Especially popular in New England. Skin light brown, flesh yellow, dry and sweet. Shape long (10 to 12 inches) with thick necks that are solid meat, and a small seed cavity at end. Matures early and keeps well.				
780 DELICIOUS. The Most Popular Medium Size Squash25	.75	2.50	22.50
This has now become a standard high quality type on Eastern markets. Squash medium sized, with attractive pointed shape, and very deep green color. Flesh bright orange, very dry and sweet. Our stock is exceptionally fine.				
792 GOLDEN DELICIOUS25	.75	2.50	22.50
An excellent small orange squash for roadside and market. Superb quality. Also widely used for commercial canning and freezing.				
793 Golden Hubbard25	.75	2.50	22.50
797 HUBBARD—True25	.75	2.50	22.50
Dark green smooth skin, fruit of high quality. We have a fine true strain.				
800 IMPROVED WARTED HUBBARD. (Dark Green)30	.85	2.75	25.00
Larger, more warted, and darker green than the true Hubbard squash. An excellent stock that will produce large crops of the finest squash.				
810 QUALITY. See above35	1.00	3.00	27.50
815 ROYAL ACORN. (Mammoth Table Queen) See above20	.60	2.00	17.50
820 TABLE QUEEN. Also called Acorn and Des Moines20	.60	2.00	17.50
The Individual Squash. Small dark green fruit 5 to 6 in. long 4 $\frac{1}{2}$ in. in diameter, deeply ribbed and very hard. We have a fine even stock of this popular variety.				
823 WARREN. Improved Essex Hybrid40	1.10	3.25	30.00
Our own special strain of this popular New England type. Squash are medium sized, heavily warted and bright orange red in color. They have a distinctive "button" at the blossom end, and the flesh is thick, fine-grained and sweet.				

SPINACH

Sow about 12 to 20 lbs. of seed per acre in rows.

765 Special Summer Savoy

Extra Selected—Long Standing

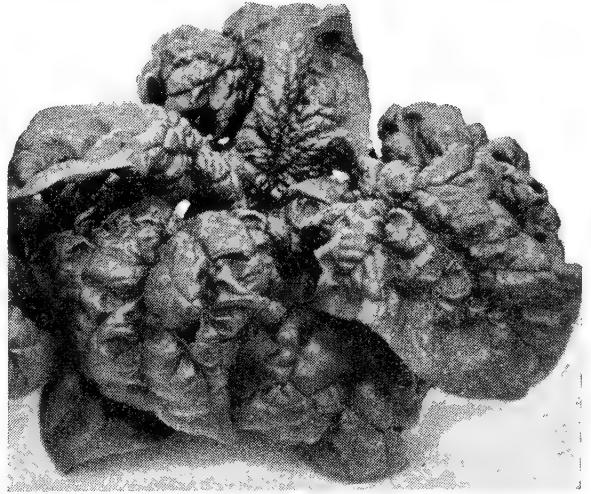

We highly recommend this remarkable strain of Long Standing Bloomsdale type, and we believe it is the best strain obtainable. Every plant is of the true type with large beautifully crumpled or "Savoyed" leaves; the color is a very attractive deep green and the spinach stands a long time without bolting to seed. Growers find that the yield per acre is consistently heavy.

This is the best kind for spring sowing and is also used for late fall sowing for spring crop as it is very hardy. We urge our customers to plant this extra fine stock which has been so satisfactory for many years. See prices below.

768 Viking

Early—Large Leaved—Long Standing

This spinach has proved to be a most excellent kind for spring sowing as it grows very rapidly and gets to cutting size early. It continues to grow a long time and produces immense plants without going to seed. The habit of growth resembles the old Nobel Giant Leaved; the leaves are large and broad, dark green in color and moderately well crumpled or blistered. Viking will produce extraordinary large crops of fine-looking spinach. See prices below.

SPECIAL SUMMER SAVOY

BLIGHT RESISTANT SAVOY

Stand up in the fall when other kinds fail.

750 Blight Resistant Savoy

Best for Fall Crops

We have an exceptionally good stock of this popular variety. It is the true Virginia Strain, practically 100% resistant to blight and can be depended on to produce large crops in the fall where other varieties blight and fail entirely. The type is excellent with dark green well crumpled leaves and the yields are very heavy.

Blight Resistant Savoy does not stand as well as some other kinds in the spring, although our strain will stand three to four days longer than most strains of this variety. See prices below.

ARASAN is the best seed treatment for spinach. See page 48.

We shall be glad to quote special prices to growers who use larger quantities of spinach than listed here. Please write. 25 lbs. or more of any one variety supplied at 100 lb. rate.

	lb.	10 lb.	100 lb.
750 BLIGHT RESISTANT SAVOY. For Fall Crop. See above.	\$.50	\$4.50	\$40.00
755 LONG STANDING BLOOMSDALE. (For Spring sowing)50	4.50	40.00
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.			
760 NORFOLK SAVOY. (Reselected Bloomsdale)45	4.00	35.00
A fine stock of this old favorite. Heavily crumpled dark green leaves. Used for early spring sowing, and in late fall for wintering over in many sections.			
762 OLD DOMINION. For Fall Crop50	4.50	40.00
Very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is <i>blight resistant</i> and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed," producing large crops which stand up well when shipped.			
765 SPECIAL SUMMER SAVOY. See above50	4.50	40.00
768 VIKING. Large Leaved—Long Standing. See above55	5.00	45.00
758 NEW ZEALAND SPINACH. Valuable for Summer ¼ lb. 55c	1.60	15.00
Not a true spinach, but grows a large plant with small thick leaves that may be cut repeatedly. Valuable for greens in hot dry weather. Seed germinates slowly and should be soaked 24 hours before planting.			

TOMATOES

An ounce of seed will produce about 2000 plants.

Harris' New York State Certified Tomato Seed

For nine successive years we have offered New York State Certified Tomato seed of our own growing. This seed must meet the *highest* standard of purity and freedom from disease.

Most of the tomato seed sold today is a by-product from fruit which has been processed in canning factories for the juice. Our Certified Tomato Seed is all grown on our own farms for the special purpose of obtaining the very best possible seed. Our seed crops are grown 100% from hot water treated stock seed and the seed is all saved by the fermentation process; reducing seed borne diseases, such as early blight, to a minimum.

890 Victor

Best for Extra Early Crop

At the time when the old extra early varieties have but one or two ripe fruits, Victor produces large clusters of beautiful tomatoes ripening all at once.

The tomatoes are of good size, smooth and solid. Having a characteristic light color when green, they turn quickly to a brilliant scarlet color all over. There are no green spots on Victor.

The vine is a sturdy determinate type, that can be planted close together (2 x 3 ft. is recommended) and thus have more early fruit per acre. If you want extra early tomatoes, grow Victor.

New York State Certified Seed of our own growing. See prices on next page.

867 John Baer—Improved Strain

For many years the leading second early tomato

Our N. Y. Certified John Baer is well recognized as the finest strain of this old favorite variety. It will produce larger fruit and more tons of fine tomatoes to the acre than any strain we have ever seen. The fruit is unusually large for this variety, very smooth and deep red throughout, coloring right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and can recommend it most highly both for market and canning. **N. Y. State Certified Seed** of our own growing. See prices on next page.

STOKESDALE TOMATOES
From our certified seed crop.

VALIANT

Not only early but holds up well on the later sets.

889 Valiant

Very Early—Large Fruit

Valiant is being used by more and more growers each year for early crop. It has taken the place of the old Earliana in nearly all sections, for it produces much larger and finer fruit and is almost as early. The fruit is smooth, deep, nearly round in shape and of good interior structure; it colors up much better than Earliana, and the early yields are very heavy.

The vines are of spreading habit of growth and do best when well fertilized and grown on fairly heavy soil. Valiant has already proved to be a most popular and profitable variety for early market and we recommend it especially for places where Victor does not succeed. This year we are pleased to offer **N. Y. State Certified Seed**. See prices on next page.

888 Stokesdale

Heavy Yielding Medium Early Type

Ripening at the same time as John Baer, this excellent variety has proved to be well adapted for market, shipping and canning. The fruit is medium sized, with a very uniform smooth, deep globe shape, bright scarlet color and fine quality. The fruit ripens evenly and is very free of cracks and blemishes.

The yields are extremely heavy and the vines are strong and vigorous, making it one of the most dependable kinds to grow. Our strain is by far the best obtainable and we offer only **N. Y. State Certified Seed** of our own growing. See prices on next page.

TOMATOES—Continued on next page

TOMATOES—Continued

875 Pritchard's Scarlet Topper

Also Called "Pritchard"—Unexcelled for market when grown on good fertile soil

Because of its fine quality and beautiful appearance this tomato has become one of our most popular market varieties. Our strain, raised here in the North for many years, is outstanding for size, vigor, yield and earliness.

It ripens just after John Baer and is a very heavy bearer. The flesh is very solid with few seed cavities and a fine red color all the way through. It is quite free from cracking and the quality is extra fine, being mild and without acidity.

The plants are robust but not of rank growth. We offer the finest **New York State Certified Seed** of our own growing. See prices below.

RUTGERS—A single cluster from our crop.

885 Rutgers—

Harris' Northern Grown Strain

The Best Main Crop Tomato

In our opinion Rutgers is the finest main crop tomato grown today. It combines large size, solid structure, fine flavor and a beautiful rich red color that goes all through the fruit, making it excellent for both market and canning. The vines are large and very husky and stand up well even late in the season; they bear tremendous crops of fine heavy fruit.

Our strain has been grown and selected here in the North for years and has proved to be the best strain obtainable. The earliness and yield, the uniformly large size and smooth even shape of the fruit have all been improved as a result of careful breeding on our farm ever since this fine variety was introduced. **N. Y. State Certified Seed of our own growing.** See prices below.

		Oz.	¼ lb.	lb.
850 BONNY BEST.....	5 lbs. \$32.50	\$7.00	\$2.10	\$7.00
853 COMET. Forcing Tomato. (N. Y. Certified) See next page.....				
855 Dwarf Champion.....			Crop Failed	
Earliana.				
We have discontinued this old extra early variety as it has now been superseded by Victor and Valiant. For growers who have been using Earliana and who want large vines and early fruit, we especially recommend that they try the new Valiant described on the preceding page.				
859 EARLY DETROIT. The Best Early Pink Tomato.....		.70	2.10	7.00
A very fine pink variety with smooth, evenly colored fruit of good size.				
862 GOLDEN JUBILEE. (New.) The Best Orange.....	¼ oz. 40c; ½ oz. 75c	1.25	4.00	12.00
Far better than any other yellow-orange variety. Smooth deep globe shaped, solid and meaty with excellent flavor and very mild taste. Handsome golden orange skin, deep orange flesh. Seed of our own growing.				
865 ITALIAN RED PEAR. Pomo d'oro a Pero (N. Y. Certified).....		.80	2.45	8.50
Large pear shaped tomatoes borne in clusters of 4 to 7 fruits on vigorous vines. Widely used for tomato paste and canning "Italian style."				
867 JOHN BAER. (N. Y. Certified Seed) See page 31.....	5 lbs. \$32.50	.70	2.10	7.00
869 LARGE ITALIAN PLUM or King Humbert.....		.70	2.10	7.00
Large plum shaped fruit which colors to a rich red right up to the stem. Used for tomato paste or canning whole.				
870 MARGLOBE.....		.60	1.80	6.00
Standard main crop variety for market and canning, and also used for green wraps. Smooth, deep globe fruits, very solid and firm. Vines vigorous and resistant to blight.				
872 PAN AMERICAN. Resistant Main Crop Type.....		.80	2.40	8.00
Ripens in season with Rutgers or Marglobe and resistant to nailhead rust and fusarium wilt. Deep globe shape, very uniform. Especially valuable for Southern conditions and to extend the season as the fruit holds up well at all times.				
874 PONDEROSA. Largest Pink Kind.....		.85	2.60	9.00

TOMATOES—Continued

853 Comet Tomato

For Greenhouse and Trellis Growing

Our stock is used regularly by some of the largest and best growers of greenhouse and trellis tomatoes, where a medium size fruit is wanted. We are pleased to offer **N. Y. State Certified Seed** of this fine strain of **Comet Tomato**. The seed is saved only from the best fruit on trellis grown plants and has been found superior for both greenhouse use and growing outside on supports.

Pkt. 20c; 1/8 Oz. 50c; 1/4 Oz. 90c; 1/2 Oz. \$1.65; Oz. \$3.00; 1/4 lb. \$10.00.

SMALL FRUITED TOMATOES

Popular to use in pickles, salads and preserves.

Varieties: 879 Red Cherry, 881 Red Pear, 882 Red Plum, 893 Yellow Cherry, 894 Yellow Pear, 895 Yellow Plum, 863 Ground Cherry (Husk).

Pkt. 15c; 1/2 oz. 50c; Oz. 90c; 1/4 lb. \$3.00.

Any three pkts. 40c; any three 1/2 oz. \$1.25.

COMET TOMATO

Note the heavy set of fine fruit.

See next page for Harris Tomato Plants. Sturdy, well-grown seedlings and large transplanted plants.

TURNIPS

It requires 1 to 1 1/2 lbs. of seed per acre in drills, or 2 to 2 1/2 lbs. broadcast.

920 Purple Top White Globe

Special Strain—Very Uniform

This stock of Purple Top White Globe turnip continues to produce the smoothest, handsomest turnips we have ever seen. The turnips are a snowy white with bright purple tops and the shape is smooth and round. This strain is very uniform and all the turnips are of the finest type.

It costs no more to grow these fine turnips, and their attractive appearance makes them sell much better on the market. See prices below.

PURPLE TOP WHITE GLOBE

Our special strain is the finest for market.

	1/4 lb.	lb.	10 lb.
902 EARLY WHITE MILAN. The Earliest Turnip.....	\$.35	\$1.10	\$10.00
<i>Very early, flat white turnip.</i>			
906 GOLDEN BALL. The Smoothest Yellow Turnip.....	.35	1.00	9.00
<i>Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.</i>			
920 PURPLE TOP WHITE GLOBE. Special Strain. See above.....	.30	.80	7.50
928 SHOGOIN. The Best Foliage Variety.....	.35	1.10	10.00
<i>The best turnip for greens, very much superior to Seven Top. The turnips are white, oblong in shape and of fine quality. The tops are light green, of good quality and grow in clusters.</i>			

RUTA BAGAS

910 Improved Long Island

The Best Yellow Ruta Baga for Market and Storage

This fine purple top ruta бага is now the standard all purpose variety and we offer an excellent strain. The roots are large, globe shape, smooth and without too much neck. They are colored purple above the soil level and yellow below; the flesh is light yellow, firm, fine-grained and sweet. The yields with this strain are very heavy.

1/4 lb. 35c; lb. \$1.10; 10 lb. \$10.00.

915 Macomber

White Flesh, Finest Quality

This is an exceptionally mild-flavored, sweet ruta бага that should be grown more extensively. The roots are well shaped, nearly round with little neck, and the color is white with green or purplish tops. The flesh is clear white and very fine grained and people who are familiar with its quality will not have any other kind. Excellent for roadside stands and local markets.

Oz. 25c; 1/4 lb. 75c; lb. \$2.00; 10 lb. \$19.00.

VEGETABLE PLANTS

Orders for plants will be entered at any time. The plants will be sent when ready, or if ordered for specific dates as near the date as possible. Orders for the same shipping date are filled according to date received; so it is always wise to order early.

PLEASE NOTE: Our plants are expertly and carefully packed so that they should reach you in good condition, but if they are delayed on the road or for any other reason, they arrive in poor shape, *let us know at once* and proper adjustment will be made. We cannot be responsible for the plants living after they are planted as this depends on how they are planted and the soil and weather conditions, over which we have no control.

A Greenhouse of Early Cabbage on Moreton Farm.

Except where noted, the plants are sent at the expense of the purchaser.

If plants are wanted by parcel post an extra charge is made for postage as follows: To places in the 2nd zone (150 miles) 1c per lb., 3rd zone 2c per lb., 4th zone 4c per lb.

NOTE: Both mail and express shipments are still not handled as quickly as before the war and allowance should be made for possible slow delivery.

CABBAGE. Early transplanted plants. Not prepaid 500 plants \$6.50, 1000 \$12.00.

Ready April 15 to May 15. Well hardened in cold frames and will stand considerable frost. Golden Acre only. Weight 500-14 lbs., 1000-25 lbs.

(We can supply limited quantities of field grown Cabbage, Broccoli and Brussels Sprouts plants after June 20. See our general catalog published in January.)

CAULIFLOWER. Early transplanted plants. Not prepaid 500 plants \$7.50, 1000 \$14.00.

Ready from April 25 to May 15. Snowball only. Weight 500-14 lbs., 1000-25 lbs.

Field grown plants, not ready until June 20. Not prepaid 500 plants \$3.50, 1000 \$6.00.
Snowball only. Weight 500-20 lbs., 1000-40 lbs.

EGG PLANT. Potted plants. Not prepaid 100 plants \$8.00.

Ready about May 15th. Black Beauty only. Grown and shipped in No. 2½ "Fertile Pots." Weight 100 plants about 50 lbs.

MUSKMELON. Potted plants. Not prepaid 100 plants \$8.00.

Ready about June 1st. Varieties: Delicious and Bender's Surprise. Grown and shipped in No. 2½ "Fertile Pots." Weight 100 plants about 50 lbs.

WATERMELON. Potted plants. Not prepaid 100 plants \$8.00.

Ready about June 1st. Varieties: Honey Cream and Dixie Queen. Grown and shipped in No. 2½ "Fertile Pots." Weight 100 plants about 50 lbs.

ONION PLANTS. 10 bunches \$3.00 postpaid. Not prepaid Full Crate (60 bunches) \$9.50.

Shipment will be made immediately upon receipt of plants from Texas, during the latter part of April. Please see page 21. Weight about 30 lbs. per crate. Sweet Spanish only.

PEPPERS. Strong transplanted plants. Not prepaid 500 plants \$8.00, 1000 \$15.00.

Ready about May 15th. Harris' Wonder, Harris' King of the North, Harris' Earliest and Hot Portugal. Weight 500-14 lbs., 1000-25 lbs.

PEPPERS. Untransplanted Plants or Seedlings. 500 plants \$3.00, 1000 \$5.00 transportation paid.

Ready April 15 to May 15. Harris' Wonder, Harris' King of the North, Harris' Earliest and Hot Portugal. These plants should be grown in frames until large enough to plant in the open ground.

TOMATOES. Strong Transplanted Plants. Not prepaid 500 plants \$8.00, 1000 \$15.00.

Ready about May 15th. Varieties: Victor, John Baer, Stokesdale, Pritchard's Scarlet Topper, Rutgers. Weight 500-18 lbs., 1000-30 lbs.

TOMATOES. Untransplanted Plants or Seedlings. 500 plants \$3.00, 1000 \$5.00 transportation paid.

Ready April 10 to May 15. Varieties: Victor, John Baer, Stokesdale, Pritchard's Scarlet Topper, Rutgers. Sturdy plants, grown especially for seedlings from seed sown very thinly. They should be set in frames and allowed to grow for two weeks or more before setting in the field. Strong seedlings 3 to 4 in. high.

TOMATOES. Potted Plants. Not prepaid 100 plants \$7.50.

Ready about May 15th. Grown and shipped in No. 2½ "Fertile Pots." Varieties: Victor, John Baer, and Rutgers. Weight 100 plants about 50 lbs.

250 or more plants are furnished at the 500 rate; 750 or more at the 1000 rate. For prices on quantities less than listed here see our general catalog.

ROOTS, ETC.

ASPARAGUS. *Mary Washington.* 1 yr. roots only.....Not prepaid 500 roots \$9.50, 1000 \$18.00.

The quality of the roots is of utmost importance in starting an asparagus bed. When you buy from us you can be sure of getting roots of the true strain, freshly dug, carefully sorted and superior in every way. (Weight 500-35 lbs., 1000-70 lbs.)

HORSE RADISH. *New White Hot.*.....500 sets \$8.00, 1000 \$15.00 transportation paid.

A much superior new variety, introduced and sold exclusively by us. Plants are larger and more vigorous, roots bigger and hold their white color much longer after grinding than the old kinds. Very hot. Highly recommended.

RHUBARB ROOTS. *MacDonald.*..... Not prepaid 25 roots \$7.50, 100 \$25.00.

Sturdy root divisions. See page 27. (Weight 1½ lbs. each.)

STRAWBERRIES, RASPBERRIES, ETC.

A limited quantity of strawberry and raspberry plants and grape vines will be available. Please write for varieties and prices, or refer to our general catalog published in January.

POTATOES

New York State Certified Seed

All potatoes are strictly net cash with order. No cash discount is allowed and full remittance must accompany order as they cannot be charged or sent C.O.D.

Potatoes are offered f. o. b. Coldwater, N. Y. and purchaser pays all transportation charges.

The potatoes are shipped in sacks holding 100 pounds. We can usually ship safely by the 25th of March, but not before, as the potatoes are kept in storage until that time.

We offer only **New York State Certified U. S. No. 1** potatoes grown from clean, high yielding stock seed.

EARLYANA (New). The Best for Grain	\$4.50	\$8.80	\$4.25
This heavy yielding new soy bean is better than Seneca, and is replacing it. It is somewhat earlier and carries the pods well up off ground. The seed is clear yellow and a little larger.			
MANDELL. An Improved Type of Manchuk. Late	4.50	8.80	4.25
Recommended for hay and plowing under as a cover crop. Very large vigorous growth.			

Barley

NOT PREPAID

	Sack	5 Sacks
ALPHA BARLEY. (48 lbs. per bu.)	Sack 2 bu. \$6.00	\$29.50
The standard two-row spring barley for New York State. Widely adapted, stiff strawed and excellent for sowing with oats.		
HANNCHEN BARLEY. (48 lbs. per bu.)	Sack 2 bu. 5.80	28.50
This is a two row barley, very closely resembling Alpha in type and growth. Not quite as stiff-strawed, but a good heavy-producing type which has done very well in New York State.		

Oats

	Sack	3 bu.	6.60	32.25
LENROC OATS. (N. Y. Certified) (32 lbs. per bu.)	Sack 3 bu.	5.70	27.75	
Tall grower and very heavy yielder; large plump berries nearly white in color. The leading variety in New York State.				
VANGUARD OATS. (32 lbs. per bu.)	Sack 3 bu.	6.60	32.25	
This variety is widely grown in Ontario, Canada, and is well adapted to New York State conditions. It is a midseason oat, resistant to stem rust and produces very good yields. The growth is tall with a fairly stiff straw.				
VICLAND OATS. (32 lbs. per bu.)	Sack 3 bu.	4.50	22.00	
Recommended especially for places where Lenroc and Vanguard grow too tall. Vicland has a short, stiff straw, matures early and yields heavily Very popular in New York and other northern states.				

Buckwheat

JAPANESE BUCKWHEAT. (48 lbs. per bu.)	Sack 2 bu.	4.50	22.00
We have good supplies and a very fine lot of seed to offer this year.			

Flower Seeds

The demand for annual and perennial plants far exceeds the supply. You can sell almost anything you grow. If, however, you want to hold your trade in the years to come you will supply material of high quality. It takes no more time to grow good petunias, for instance, than to grow mediocre ones.

And don't waste time and money "shopping around" for your seeds. It's our business to grow or select the best strains available now. You can depend on us not only to supply you with good seeds but to be honest and fair in our dealings with you.

For terms see inside front cover

SEE OUR RETAIL CATALOG FOR MORE COMPLETE DESCRIPTIONS

HARRIS' ASTERS

Asters may now be grown successfully in almost every area. Wilt has been eliminated by producing wilt resistant varieties. Good cultural practices will control rot. Preliminary tests show that DDT will control the leaf hoppers that carry yellows. *Ask for our free directions for using lights on aster seedlings.*

WILT RESISTANT ASTERS

W1500 Harris' 8-Best Mixture

For good performance under all conditions, for wide color range and variation in form of flowers there is no finer mixture. We use equal quantities of the following eight best wilt resistant varieties.

Crego Shell Pink	Early Giant Light Blue
Crego Deep Rose	Early Giant Peach Blossom
Peerless Pink	Am. Branching Purple
Heart of France	Am. Branching White

Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.60; ¼ Lb. \$5.00.

American Branching Asters

The standard mid-season variety with broad incurved petals.

W1601 White	W1605 Purple
W1602 Flesh Pink	W1606 Crimson
W1603 Rose	W1607 Peach Blossom
W1604 Azure Blue	

ABOVE COLORS: Lg. Pkt. 25c; ¼ Oz. 55c; Oz. \$1.80.
W1600 Variety Mixture. Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.60.

Ball's Selections

These are improved forms of the American Branching Asters particularly valuable because of their long sturdy stems and the large size of the full double flowers. They stand up very well in shipping.

	Lg. Pkt.	¼ Oz.	Oz.
W1081 Ball White Early.....	\$.30	\$.60	\$2.00
W1082 Ball White Late.....	.25	.55	1.80
W1083 Ball Deep Rose.....			
W1085 Ball Purple.....			

W1066 Peerless Pink

This is still the most popular light pink aster. Large double flowers on vigorous plants.

Lg. Pkt. 25c; ¼ Oz. 55c; Oz. \$1.80.

ASTER GOLDEN SHEAF

W1094 Aurora, Golden Sheaf

This belongs to the Princess type having a crested or anemone center of yellow with an outer band of broad creamy white petals.

Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

New Early Giants

These Early Giants have just about reached perfection. They bloom early, are wilt resistant and the large flowers with broad gracefully intertwined petals are borne on long stems on which few laterals are produced.

	Lg. Pkt.	¼ Oz.	Oz.
W1822 Rose Marie. Bright rose	\$.35	\$.85	\$3.00
W1823 Peach Blossom.....			
W1824 Light Blue.....			

Queen of the Market

Still the best early variety available at this time. Comes into bloom in early August.

W1204 Lavender	W1205 Purple
ABOVE COLORS: Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.60	
W1201 White, W1203 Rose, W1200 Variety Mixture.	
<i>Crop Failed.</i>	

W1078 Heart of France

The most popular red aster and still a favorite for gardens.

Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00

Crego Asters

Also called "Ostrich Feather" Asters. Large flowers with long twisted petals.

W1401 White
W1402 Shell Pink
W1403 Deep Rose

W1404 Azure Blue
W1405 Purple

ABOVE COLORS: Lg. Pkt. 25c; ¼ Oz. 55c; Oz. \$1.80.
W1400 Variety Mixture. Lg. Pkt. 20c; ¼ Oz. 50c;
Oz. \$1.60.

Royal Asters

Same form as American Branching but a little earlier.

W1301 White
W1302 Shell Pink
W1303 Rose

W1304 Lavender
W1305 Purple

ABOVE COLORS: Lg. Pkt. 25c; ¼ Oz. 55c; Oz. \$1.80.
W1300 Variety Mixture. Lg. Pkt. 20c; ¼ Oz. 50c;
Oz. \$1.60.

NON-WILT RESISTANT ASTERS

If grown in non-infected soil these varieties are sturdy enough to give very good results.

W1010 California Sunshine Asters

A better mixture of tall growing asters with large single flowers, many with quilled centers.

Mixed Colors. Lg. Pkt. 30c; ¼ Oz. 85c; Oz. \$2.75.

W1810 California Giants

Immense flowers of the graceful shaggy type borne on long stems. Where wilt is not prevalent and where the growing season extends into late September, the California Giants are Supreme.

Mixed Colors. Lg. Pkt. 30c; ¼ Oz. 65c; Oz. \$2.25.

W1700 Victory Giants

Enormous flowers with shaggy reflexed petals. Long clean stems. Colors are salmon shades, white, light pink, rose, shades of blue and striped. Earlier than the other large flowered types.

Mixed Colors. Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

Imbricated Pompons

Similar to Pompon Chrysanthemums but providing colors not available in "mums." Planted close and grown under cloth the stems are good length for cutting. Grown outdoors the whole plant is cut at one time. Blooms early September.

W1101 White

W1105 Scarlet

W1102 Rose

W1106 Deep Blue

W1103 Light Blue

ABOVE COLORS: Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

W1100 Mixed Colors. Lg. Pkt. 30c; ¼ Oz. 75c;
Oz. \$2.75.

W1830 Single California Giants

Immense single daisy-like flowers with small bright yellow centers. Long graceful petals in exquisite colors. Blooms early September.

Mixed Colors. Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.60.

AGERATUM

Sow in January for spring pot plants; February for spring plants.

W2012 Midget Blue

Very dwarf, only 5 to 6 inches tall with clear blue flowers standing well above the foliage.

Lg. Pkt. 45c; ½ Oz. 95c; ¼ Oz. \$1.70; Oz. \$5.25.

W2013 Blue Bedder

One of the finest varieties from seed since it produces such large flower clusters on uniformly dwarf plants.

Lg. Pkt. 50c; ½ Oz. \$1.00; ¼ Oz. \$1.75; Oz. \$5.50.

W2014 Blue Ball

Growing 6 to 10 inches tall this variety is ideal for pot plants, combinations, window boxes as well as borders.

Lg. Pkt. 30c; ½ Oz. 60c; ¼ Oz. \$1.10; Oz. \$3.50.

ALYSSUM

CARNATION (Annual)

This has always been a good flower to sow for plant sales. Sown indoors very early and grown cool, the plants will find a ready sale.

W2290 Giant Double Chabaud Mixed Colors. Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

CASTOR BEAN (Ricinus)

W2500 Tropical Mixture. Oz. 25c; ¼ Lb. 75c.

CELOSIA (Cockscomb)

FEATHERED OR PLUMED TYPES

W2376 Dwarf Fire Feather

Dwarf, compact, many branched plants. The silky plumes are a rich fiery crimson.

Lg. Pkt. 30c; 1/8 Oz. 70c; 1/4 Oz. \$1.20; Oz. \$4.00.

W2377 Dwarf Golden Feather

Rich golden yellow. Very dwarf. Always popular for bedding, borders, pots and boxes.

Lg. Pkt. 30c; 1/8 Oz. 70c; 1/4 Oz. \$1.20; Oz. \$4.00.

W2375 Dwarf Plumed Mixed Colors

Contains not only the vivid reds and yellows but many tones of these as well as rose and creamy white.

Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.30; Oz. \$4.25.

W2370 Thompsoni Magnifica Tall Mixed

Graceful feathery plumes. 2-2 1/2 ft. Many shades of reds and yellows.

Lg. Pkt. 20c; 1/4 Oz. 55c; Oz. \$1.75.

CRESTED TYPE (Cristata)

W2380 Finest Dwarf Mixed Colors

Enormous "combs" in shades of yellow, orange, rose and red on 10-12 in. plants.

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

CENTAUREA

BACHELOR BUTTON (Cyanus)

W2325 Double Blue Florist's Strain

A very fine strain of the tall double bright blue used by florists for cut flowers. Try a fall sowing for early summer cutting.

1/4 Oz. 20c; Oz. 50c; 1/4 Lb. \$1.50.

	1/4 Oz.	Oz.	1/4 Lb.

W2332 JUBILEE GEM. Dwarf	.15	.45	1.35
Blue.....	.35	1.00	3.00

SWEET SULTAN (Imperialis)

Much in demand as a cut flower because of the soft colors that blend well with other flowers. Holds up well for many days after cutting.

W2340 Mixed Colors. 1/4 Oz. 25c; Oz. 75c.

CHRYSANTHEMUM (Annual)

Single daisy-like flowers with striking color combinations. Hold up very long as cut flowers. A small section of a greenhouse bench planted to them pays dividends. Good cut flower outdoors, too.

W2400 Mixed Colors. 1/4 Oz. 15c; Oz. 40c.

CLARKIA

Grown best in the greenhouse in flats which can be moved around if necessary. Perfect filler for mixed bouquets, so should be grown more. Good outdoors in areas of moderate summer temperatures.

W2420 Sunrise Mixture. Lg. Pkt. 15c; 1/4 Oz. 45c; Oz. \$1.50.

CLEOME (Spider Plant)

One of the most satisfactory garden flowers of recent introduction. Continuous bloom from July till frost. Demand steadily increasing. Be ready with plenty of plants this spring.

W2416 Pink Queen. Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.75.

COCKSCOMB, DWARF FIRE FEATHER

COLEUS

W2511 HARRIS' EXTRA FANCY MIXTURE

We grow this seed ourselves and know it is far superior to any coleus on the market. The color combinations are unusually showy; all dull and unattractive ones are taken out. The plants tend to stay low and do not produce flower stalks until late.

Lg. Pkt. 50c; 1/4 Oz. 90c; 1/16 Oz. \$2.75; 1/8 Oz. \$5.00.

W2510 Rainbow Mixture

This formerly was the best strain we could procure and is still considered very good.

Lg. Pkt. 30c; 1/16 Oz. 75c; 1/4 Oz. \$2.00; Oz. \$6.50.

COSMOS

Cosmos have become a profitable cut flower crop since the introduction of Sensation Hybrids because of their enormous size, earliness and good keeping qualities.

	Lg. Pkt.	1/4 Oz.	Oz.
W2466 Sensation, Purity White	\$.20	\$.35	\$ 1.15

W2465 Sensation, Mixed Colors	.15	.30	1.00
W2450 Early Giant, Mixed			
Colors.....	.10	.15	.45
W2460 Double Crested, Mixed	.25	.60	2.00
W2475 Orange Flare.....	.15	.30	.85

CHINESE FORGET-ME-NOT

A good true blue annual. Compact, early and continuous flowering.

W2583 Cynoglossum Blue Firmament. Lg. Pkt. 20c; 1/4 Oz. 30c; Oz. \$1.00.

DAHLIAS

Have a few potted plants in bloom in May (from a December-January sowing) and the demand for flat grown plants (from a February sowing) will be tremendous. Colors range from vivid reds through soft pinks, yellow and orange to pale buff. Plants 1 1/2 to 2 feet. Flower stems good length for cutting.

W2606 Unwin's Dwarf Hybrids. Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 70c; Oz. \$2.50.

DIANTHUS (Pinks)

Increasingly popular for mass plantings and edging. Have some plants ready for your customers this spring.

W2670 Heddevegi Double, Mixed Colors. ¼ Oz. 35c; Oz. \$1.15.

GAILLARDIA

Bushy plants 12 to 15 inches tall. Double flowers of orange, yellow, red, rose, and many variegations of these colors. Long lasting cut flower.

W2900 Double Annual Mixed Colors. Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.60.

GODETIA

The name, Satin Flowers, is descriptive of the texture of these soft colored flowers in shades of pink, red, lilac or purple with a dark blotch at the center of each petal. The bushy plants about 1 foot high make excellent pot and combination plants if grown under cool conditions.

W2950 Azalea Flowered, Dwarf Double Mixed. Lg. Pkt. 15c; ¼ Oz. 45c; Oz. \$1.50.

DRACAENA (Spikes)

Narrow leaves; most generally used.

W2750 Indivisa. Oz. 75c; ¼ Lb. \$2.25.

DUSTY MILLER

This is by far the best Dusty Miller because of its fine cut foliage. Easily grown and much in demand for an edging, window boxes and combinations.

W2355 Cineraria Maritima, Diamond. ¼ Oz. 25c; Oz. 85c.

GOURDS

There is profit in well grown gourds. Vegetable growers with a roadside stand find a ready retail outlet for them. Plant them along fences where they can find support.

W2985 Small Sorts Mixed. ¼ Oz. 20c; Oz. 45c; ¼ Lb. \$1.50.

GYPSOPHILA

We offer the most outstanding variety having very full petaled flowers which hold up very well when cut. Make successive sowings several weeks apart and have a steady income from this quick growing crop.

W2992 Covent Garden. Oz. 30c; ¼ Lb. 85c; Lb. \$2.25.

HELICHRYSUM (Strawflower)

These sell well in the fall at roadside stands. Easy to grow from seed sown outdoors in May.

W3070 Double Mixed Colors. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00.

HELIOTROPE

The best heliotrope available from seed. Neat compact plants 15 in. tall with very large clear colored flower heads in rich shades of heliotrope, lavender and purple. Delightfully fragrant.

W3132 Dwarf Regale Mixed. Lg. Pkt. 50c; ½ Oz. \$1.10; ¼ Oz. \$1.95.

KOCHIA (Summer Cypress)

This new strain makes a quick compact bright green hedge which remains green until late fall.

W3190 Childsii. ¼ Oz. 10c; Oz. 25c.

CINERARIA MARITIMA IS THE BEST DUSTY MILLER

LARKSPUR

A sowing outdoors in late August or September produces a good spring cut flower crop. The Super Majestics are a recent improvement of the Imperials, making a stronger, taller growth than any variety thus far produced.

SUPER MAJESTICS

	Lg. Pkt.	¼ Oz.	Oz.
W3241 Majestic, White	}	\$.20	\$.45
W3242 Majestic, Rose			
W3245 Majestic, Lavender			
			\$1.50

IMPERIAL or BASE BRANCHING

Because of their clean upright growth and the wide range of colors in this class, the Imperials are still outstanding larkspurs for outdoor or greenhouse work.

W3248 Los Angeles Improved. Salmon rose.

W3252 Carmine King. Rich, bright carmine.

W3254 Blue Bell. Mid blue.

W3255 Lilac Spire.

W3256 White King. Large white.

W3258 Blue Spire. Deep violet blue.

ABOVE COLORS: Lg. Pkt. 20c; ¼ Oz. 40c; Oz. \$1.10; ¼ Lb. \$3.50.

W3250 VARIETY MIXTURE

Our own mixture of the above six best kinds.

Lg. Pkt. 15c; ¼ Oz. 35c; Oz. \$1.00; ¼ Lb. \$3.15.

LOBELIA

W3300 Crystal Palace Compacta

Rich dark blue flowers and dark, often bronzy foliage.

Lg. Pkt. 35c; ½ Oz. 45c; ¼ Oz. 85c; Oz. \$3.00.

W3301 Cambridge Blue

Light blue flowers above light green foliage.

½ Oz. 45c; ¼ Oz. 85c.

W3302 Bedding Queen

Very dwarf with medium green foliage; large deep blue flowers with white eye.

½ Oz. 45c; ¼ Oz. 85c.

LUPINS

Good long stemmed cut flower for greenhouse or garden.

W3315 Hartwegi Mixed Colors. ¼ Oz. 20c; Oz. 60c.

MARIGOLDS

A February sowing produces pot plants for Easter. April plantings give transplants for which there is an unlimited demand. We have taken the guesswork out of ordering by offering only the best varieties in the various classes.

EARLY DWARF VARIETIES

W3413 GOLD CREST

Grows only 6 to 8 in. high but has 2 in. golden yellow flowers. The center is of crested quilled petals which are surrounded by several rows of guard petals. Very early, free flowering.

W3414 YELLOW PYGMY

Small yellow double flowers on very compact dwarf plants. Excellent for early potted plants.

W3416 SPRY

Very early flowering double golden yellow and red. Especially good for early pots.

W3417 SCARLET GLOW

Double flowers all red and mahogany.

W3418 BUTTERBALL

Harmony type with both the crested center and guard petals a clear golden yellow very lightly tipped with red.

W3419 MELODY

A double golden yellow of Harmony type. Uniformly 12 to 15 in. tall and early.

W3421 LITTLE GIANT (Scotch or *Tagetes signata*)

An improved strain. Small single yellow flowers and finely cut foliage.

W3422 HARMONY

Still one of the most popular. Golden center with red guard petals.

W3432 SUNKIST

Masses of rich orange flowers an inch in diameter. Uniformly dwarf, compact.

ABOVE VARIETIES: Lg. Pkt. 20c; ¼ Oz. 45c; Oz. \$1.50.

W3410 HARRIS' DWARF VARIETY MIXTURE

Made up of equal parts of the finest, very dwarf varieties. Spry, Butterball, Sunkist, Pygmy and Gold Crest.

Lg. Pkt. 20c; ¼ Oz. 40c; Oz. \$1.25.

TALL VARIETIES

Chrysanthemum-Flowered Marigolds

W3408 MAMMOTH MUM

Recently introduced, this has become a "must" for plant sales, outdoor and greenhouse cut flowers. Color a soft yellow; size 3 to 3½ in. across.

Lg. Pkt. 50c; ½ Oz. 90c; ¼ Oz. \$1.50.

W3409 GOLDEN GLOW

Odorless foliage. Flowers 2 in. across borne 5 to 8 on a stem.

Lg. Pkt. 20c; ¼ Oz. 45c; Oz. \$1.50.

Carnation-Flowered

	Lg. Pkt.	¼ Oz.	Oz.

W3407 SUNSET GIANTS.....	.20	.50	1.60

NEW MARIGOLD, FLASH

W3433 FLASH

The single flowers 1½ in. across are a bright combination of colors from vivid red through burnished copper to bright yellow. Plants uniformly compact, 18 in. tall. Blooms in 8 weeks from seed. Very easy to grow.

Lg. Pkt. 40c; ½ Oz. 70c; ¼ Oz. \$1.25.

MATRICARIA (*Feverfew*)

There is a general demand for long stemmed white flowers during the summer months. Sown in January and planted out in the spring Matricaria is ready for cutting in July and August.

W3441 Double White. Lg. Pkt. 25c; ½ Oz. 40c; ¼ Oz. 75c.

MIGNONETTE

A new early strain with large bright flower spikes on long stems. Because of its fragrance, very popular as a filler for bouquets.

W3431 Florists' Strain. ¼ Oz. 30c; Oz. \$1.00.

MORNING GLORY

	Lg. Pkt.	¼ Oz.	Oz.
W3475 HEAVENLY BLUE...	\$.15	\$.25	\$.75
W3477 SCARLETT O'HARA..	.20	.40	1.25
All-America Gold Medal winner for 1939.			
W3474 PEARLY GATES.....	.20	.40	1.25
White-flowered All-America winner for 1942. Same growth and earliness as Heavenly Blue			
W3478 CRIMSON RAMBLER..		.20	.50

W3480 Mixed Colors.....		.10	.25

NEMESIA

Very showy pot plant for spring sales. This is the dwarf type growing only 6 inches high.

W3650 Nana Compacta Triumph Mixed. Lg. Pkt. 15c; ¼ Oz. 60c; Oz. \$2.00.

NICOTIANA (*Tobacco Plant*)

	Lg. Pkt.	¼ Oz.	Oz.
W3671 Affinis, White.....	\$.15	\$.20	\$.60
W3672 Crimson Bedder.....	.25	.60	2.00
W3670 Mixed Colors.....	.15	.20	.60

NIEREMBERGIA (*Cupflower*)

The new deep lavender cupflower so popular for edging. Uniformly dwarf and compact. Seedlings are more vigorous than plants from cuttings.

W3664 Purple Robe. Lg. Pkt. 40c; ½ Oz. \$1.65.

PANSIES

W3705 New Swiss Giant Magnificent Mixture

By actual tests every year on our farm, this strain of mammoth-flowered pansies has proved to be the best. The color range includes the dark browns and reds as well as the bright shades, and is the choice of pansy critics.

Lg. Pkt. 40c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.50; Oz. \$8.00;
1/4 Lb. \$30.00.

W3704 Dwarf Swiss Giants Mixed Colors

Available once more is this strain of Swiss Giants having the immense size and all the colors of the finest Swiss Giants. The dwarf habit of growth makes them especially desirable for spring plant sales.

Lg. Pkt. 40c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.50; Oz. \$8.00;
1/4 Lb. \$30.00.

W3701 TRIMARDEAU MIXED COLORS

A good dependable strain especially useful for mass planting. Tall growing and extremely floriferous in a wide range of delicate self colors and interesting markings.

Lg. Pkt. 35c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.00; Oz. \$6.00;
1/4 Lb. \$22.00.

W3703 MAPLE LEAF GIANTS, MIXED COLORS

The largest flowers of all pansies. Blue and yellow shades on long stems predominating.

Lg. Pkt. 45c; 1/8 Oz. \$1.75; 1/4 Oz. \$2.75; Oz. \$9.00.

Pansies in Separate Colors

W3735 White Swiss

Large creamy white. Compact plants bloom continuously through the summer.

W3737 Coronation Gold

Rich golden yellow so popular for bedding and edging.

W3738 Swiss Blue

Large dark blue that combines beautifully with the other colors.

W3739 Swiss Red

Rich mahogany red with just enough variation to give them "class."

Above Colors: Lg. Pkt. 50c; 1/8 Oz. \$1.75; 1/4 Oz. \$3.00.

Violas

Our seed of this everblooming pansy-like strain is of unusually high germination.

	Lg. Pkt.	1/8 Oz.	1/4 Oz.
W3762 Chantreyland. Apricot.	\$.40	\$.95	\$1.75
W3760 Mixed Colors30	.90	1.50

Outstanding BEDDING PETUNIAS

Harris' Grown Seed

There is probably no flower in which there is such a wide range of quality in seed stocks. *That's why we grow our own petunias.* Only by constant breeding and selection can vigor of plants, uniformity of height, trueness to color and good germination be maintained. Petunia seed growing is a painstaking job. Much thought, time and labor goes into its production.

W3840 HARRIS' SPECIAL FOUR-COLOR MIXTURE

Here is an unusually fine mixture especially made up for particular buyers. We make this mixture from fresh, new-crop seed, using carefully balanced proportions of Celestial Rose, White Perfection, Dark Purple and Heavenly Blue.

Lg. Pkt. 30c; 1/8 Oz. 60c; 1/4 Oz. \$1.05; Oz. \$3.25

W3827 HEAVENLY BLUE. Improved.

This is the light blue so much in demand but generally very variable in color. We have finally produced a much improved strain. The color is 100% true clear, light blue and the plants uniformly low and compact.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3825 DARK PURPLE

A very much improved stock, more compact growing and a deep velvety dark blue-purple.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3826 CELESTIAL ROSE

The finest all-purpose bright pink. A clear pink without the large white throat of Rosy Morn. This is the most compact and uniform strain available.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3821 WHITE PERFECTION

A new white, more uniform in growth and of the same compact habit as Celestial Rose. Most white petunias are much taller.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3845 FINEST BEDDING VARIETIES MIXTURE

For growers whose plant customers want a wide range of color in mass plantings of dwarf petunias. Contains seed of separate varieties of white, cream, soft pink, rose, salmon, blue, violet and purple.

Lg. Pkt. 30c; 1/8 Oz. 60c; 1/4 Oz. \$1.05; Oz. \$3.25.

W3822 SALMON SUPREME

Rich coral salmon changing to soft pink. Very low and compact.

Lg. Pkt. 45c; 1/8 Oz. \$1.10; 1/8 Oz. \$1.80; 1/4 Oz. \$3.25.

W3844 CREAM STAR

By far the best creamy white petunia. Plants are uniformly compact and do not get leggy. Combines well with the deep reds and purples.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3836 BLACK PRINCE

The color of Flaming Velvet but more dwarf. Similar also to Velvet Ball. Our stock is uniformly dwarf and the color a very deep rich red, with no off-color plants in our seed crop.

Lg. Pkt. 45c; 1/8 Oz. \$1.10; 1/8 Oz. \$1.80; 1/4 Oz. \$3.25;
Oz. \$10.50.

W3833 TOPAZ QUEEN

A rich glowing carmine rose with golden throat. A little taller than the other low growing bedding varieties. Striking for bedding or pot plants.

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.15; Oz. \$4.00.

W3848 CHEERFUL

A soft light salmon accented by deeper veining in the throat. Plants neat and dwarf. Blossoms large. No other bedding variety has this color. Bronze Medal 1944 All-Americas.

Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/8 Oz. \$2.25; 1/4 Oz. \$4.00;
Oz. \$12.50.

W3842 FIRST LADY

Also called Fair Lady. A clear rich silvery pink on very uniformly dwarf upright growing plants. Makes beautiful pot plants for spring sales.

Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.15; Oz. \$4.00.

W3823 ROSY MORN

An unusually good strain of the ever-popular white-throated pink for bedding, boxes, etc. The flowers are large and the plants remain uniformly low growing even during the extremely hot weather.

Lg. Pkt. 25c; $\frac{1}{8}$ Oz. 55c; $\frac{1}{4}$ Oz. 85c; Oz. \$2.80.

W3851 IGLOO

Our All-America winner in 1943. A very compact low growing white with a soft yellow throat. Continuous mass of blooms throughout the season. One of the neatest and showiest. Its popularity is increasing each year.

Lg. Pkt. 40c; $\frac{1}{16}$ Oz. 85c; $\frac{1}{8}$ Oz. \$1.50; $\frac{1}{4}$ Oz. \$2.50; Oz. \$7.50.

W3847 ENGLISH VIOLET

Our All-America winner in 1943. Mass plantings look like huge English Violet corsages. The 15 in. plants are covered with rich violet color all season.

Lg. Pkt. 40c; $\frac{1}{16}$ Oz. 75c; $\frac{1}{8}$ Oz. \$1.25; $\frac{1}{4}$ Oz. \$2.00; Oz. \$6.50.

W3843 GLOW

The brightest light scarlet of all petunias. Since this was introduced we have been making our own selections and feel sure we are growing the most uniform strain, both in plant form and color, now available.

Lg. Pkt. 45c; $\frac{1}{16}$ Oz. \$1.10; $\frac{1}{8}$ Oz. \$1.80; $\frac{1}{4}$ Oz. \$3.25; Oz. \$10.50.

"I want to tell you that last year I had splendid results with your petunia seeds. Had petunias up to $5\frac{1}{4}$ inches from your Paramount Giants in spite of a very dry season."

Charles S. Randall, Trevoze, Pa. 2/25/44

Harris' GIANT PETUNIAS

GIANT RUFFLED PETUNIAS

W3802 HARRIS' PARAMOUNT GIANTS, Mixed Colors

If you could see the plants in our greenhouses being grown for a seed crop, you would agree with all who have seen them that they are by far the most exquisite California Dwarf Ruffled Giants you have ever seen. Immense, deep throated, beautifully ruffled and frilled flowers in a range of vivid and delicate colors are produced while the plants are still small, making them ideal for spring plant sales. Plants are compact and low growing.

500 seeds 75c; 1000 seeds \$1.25; $\frac{1}{64}$ Oz. \$2.50; $\frac{1}{32}$ Oz. \$4.25; $\frac{1}{16}$ Oz. \$7.50; $\frac{1}{8}$ Oz. \$13.00.

W3806 DWARF CALIFORNIA GIANTS, Mixed Colors

While not comparable to Harris' Paramount Giants this is a very good strain of seed grown in California. Interesting color range and the plants are fairly dwarf.

500 seeds 35c; 1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.50; $\frac{1}{32}$ Oz. \$2.75; $\frac{1}{16}$ Oz. \$5.00; $\frac{1}{8}$ Oz. \$9.50.

W3808 HARRIS' SALMON BEAUTY

A giant, bright salmon-pink. Immense well ruffled flowers with golden throat. An excellent florist's variety. Similar to the new "Glamour."

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3811 QUAKER LADY

Giant ruffled petals of a soft rosy lilac shading to pinkish white at the edges. Added elegance is attained by the veining of rich purplish blue which reaches into the deep open throat.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

GIANT WAVED PETUNIAS

W3809 HARRIS' ROYALTY

Since we introduced this variety the demand has so increased that we have difficulty keeping up with the supply. Beautiful large velvety flowers in varying combinations of deep purple and white. Grown as a pot plant they are a sell-out.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3814 HARRIS' GIANT SNOWSTORM

Very large, waved, pure white flowers on low growing plants. Blooms constantly in the garden and sells well as potted plants.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3816 HARRIS' PURPLE PRINCE

Not to be confused with any other "Purple Prince" offered. This is distinctly different; the largest flowered, deep velvety violet-blue. Large open throats and waved petals. Very free flowering.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

FRINGED PETUNIAS

W3817 THE ART

Also called "Columbia." An exceptionally free-flowering fringed petunia in unusual color combinations of bright reds and white, mostly in blotches. Very effective for pot plant sales.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3819 HARRIS' SETTING SUN

One of the few really dwarf varieties of the fringed petunia class. It is a rich rose with a deeper throat and is heavily fringed. Pot plants command a premium price.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3813 THEODOSIA

We know we have the best strain of this popular bright pink with golden center. Large and well fringed.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

DOUBLE PETUNIAS

W3787 ALL DOUBLE COLOSSAL SHADES OF ROSE

The finest all double petunia created in America and the largest, some being 5 in. across. Beautifully fringed and ruffled. Colors range from salmony pink through rose pink to rosy mauve. Plants wide spreading and 20 in. high.

100 seeds \$1.00.

W3772 AMERICA

The first 100% all double petunia ever created in America. Compact plants 1 ft. high and $1\frac{1}{2}$ ft. across. Large, rose-pink, carnation-flowered blooms are produced from early summer until frost.

100 seeds 40c; 200 seeds 75c; 1000 seeds \$3.00; $\frac{1}{64}$ Oz. \$11.00.

PHLOX

The largest flowered of all annual phlox. Florets 1¼ in. to 1½ in. across are borne in large clusters on sturdy upright plants 10 in. tall. Tremendous demand for plants in the spring.

W3859 Gigantea Drummondii, Art Shades Mixed
Lg. Pkt. 50c; ⅛ Oz. \$1.10; ¼ Oz. \$1.95.

PORTULACA

W3870 Double Mixed Colors
Lg. Pkt. 35c; ⅛ Oz. 75c; ¼ Oz. \$1.35; Oz. \$4.25.

W3880 Single Mixed Colors
Lg. Pkt. 20c; ⅛ Oz. 40c; ¼ Oz. 75c; Oz. \$2.50.

SALVIA

W4600 Harris' Bonfire

With the florist, the name of Harris has become synonymous with superior quality and high germinating salvia seed. Ours is a strain of our own selection grown for us in the East by a salvia specialist. The spikes are large, long, and the florets placed very closely together. The growth is as uniform as though it had been sheared. The color is of a brighter shade than any other variety, and the germination higher.

Lg. Pkt. 30c; ⅛ Oz. 65c; ¼ Oz. \$1.25; Oz. \$4.00;
¼ Lb. \$14.00.

W4605 Dwarf Harbinger

We are fortunate in again being able to offer this dwarf and very dependable early flowering salvia so much in demand for spring pot and summer bedding plants. Leaves are a deep bluish green.

Lg. Pkt. 40c; ⅛ Oz. \$1.25; ¼ Oz. \$2.00; Oz. \$6.50.

W4602 America (Globe of Fire)

A little taller and later than Firebrand. America is still the standard with many growers. Our strain is especially uniform in height and earliness.

Lg. Pkt. 35c; ⅛ Oz. 80c; ¼ Oz. \$1.50; Oz. \$4.50;
¼ Lb. \$16.00.

SCABIOSA

Here is a cut flower for which there is an increasing demand. No other flower has such a wide range of rich colors. Grow them as a spring greenhouse crop. A summer crop may be had from transplants and a fall crop from seed sown outdoors. Try the separate colors or our carefully blended mixture.

SALPIGLOSSIS

For cut flowers indoors or out, there is no flower of richer color.

W4500 Large Flowered Mixed. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00.

SCHIZANTHUS

W4635 Dr. Badger's Improved Hybrids

The "something different" for pot plants. Sown in late winter they make beautiful specimens in 5 in. pots for Mother's Day. Rightly called "Poor Man's Orchid" since they resemble spray orchids. Of medium height, this is the finest variety for pots, bouquets and corsages.

Lg. Pkt. 35c; ⅛ Oz. 65c; ¼ Oz. \$1.25; Oz. \$4.00.

SNAPDRAGONS

Harris' Colossal

We can safely boast that these Harris' grown snapdragons have the huskiest growth, longest stems, largest flowers and finest colors of any on the market today. Outdoor grown spikes compare favorably with greenhouse stock. Particularly valuable for spring plant sales because of the rapid growth made by the sturdy seedlings. (*Not rust resistant.*)

W5031 White

W5035 Crimson

W5032 Pink Shades

W5036 Orange Shades

W5030 MIXED COLORS. Lg. Pkt. 30c; ⅛ Oz. 65c; ¼ Oz. \$1.25; Oz. \$4.00.

Tall Giant-Flowered Snapdragons

More rapid progress is being made in the development of these California grown rust resistant snapdragons than in any flower these days. New and better colors appear each year and resistance to rust is about 90%. Stems 2 to 2½ feet may be cut from outdoor grown stock. Seed should be sown in early February for spring plant sales. (*Rust Resistant.*)

W5051 Pure White

W5050 VARIETY MIXTURE

This is made from equal amounts of the separate varieties.

Lg. Pkt. 20c; ⅛ Oz. 55c; ¼ Oz. 95c; Oz. \$3.00.

Half-Tall Snapdragons

Rust resistant and growing 15 to 18 inches tall, these are admirably suited to border and mass plantings. Made up of bright colors, they are showy from early summer until late fall. If cut back and mulched over winter, they can often be carried over for spring bloom the following year.

W5115 NEW COLOR MIXTURE. Lg. Pkt. 25c; ⅛ Oz. 45c; ¼ Oz. 85c; Oz. \$3.00.

SNOW-ON-THE-MOUNTAIN

W5192 Euphorbia. ¼ Oz. 20c; Oz. 50c.

HARRIS' COLOSSAL SNAPDRAGONS

STATICE

"Everlasting" flowers for winter bouquets. Flowers well outside if sown early in greenhouse. Grow in warm, light soil.

Made from equal amounts of the separate varieties.

Lg. Pkt. 20c; 1/4 Oz. 60c; Oz. \$1.80.

NEW GIANT IMPERIAL STOCKS

W6000 VARIETY MIXTURE

This is the branching type with a large percentage of doubles. One of the most profitable cold house bench crops for the grower-retailer who wants cut flower material over a long period. Requires 4 1/2 months to mature a crop for Valentine's and Mother's Day. Seed may be sown directly in the bench.

Lg. Pkt. 35c; 1/8 Oz. 45c; 1/4 Oz. 85c; Oz. \$3.00.

SUNFLOWER

Sunflowers that grow only 4 to 5 ft. high but produce large 100% double flowers in great profusion. Plant them along the roadside or near your roadside stand.

W6195 Sungold. 1/4 Oz. 25c; Oz. 75c.

SWEET PEAS

EARLY FLOWERING

The type best adapted for an early greenhouse planting or for early blooming outdoors. Our up-to-date list is composed of the best to be had.

Made up of all the 10 varieties described above. Oz. 25c; 1/4 Lb. 75c; Lb. \$2.25.

W7550 SUPERB MIXTURE

A very well balanced mixture of a wide selection of colors. Oz. 20c; 1/4 Lb. 60c; Lb. \$2.00.

RUFFLED SWEET PEAS

W7600 MIXED COLORS

A new type with large wavy petals and including a wide range of colors.

Oz. 25c; 1/4 Lb. 75c; Lb. \$2.25.

THUNBERGIA (Clock Vine)

This little vine having yellow and creamy-white flowers with black centers is an old-timer that is popular again.

W7940 Alata. 1/4 Oz. 30c; Oz. \$1.00.

TORENIA (Wishbone Flower)

Seed of our own growing assures you of an even compact strain of this charming bedding and edging plant. Stands up better than pansies in hot weather. The inch long flowers have a deep lavender standard and rich purple lip with a bright blotch.

W7955 Fournieri Compacta. 1/32 Oz. 40c; 1/16 Oz. 75c; 1/8 Oz. \$1.25.

VERBENAS

Mammoth Flowering

Home gardeners will buy all the plants of verbenas you can grow. Since seed is slow to germinate sow it the last of February or early March in 65°-70° soil.

W8003 Rose Queen
W8004 Lavender Glory
W8005 Purple King

W8007 Red Emperor
W8008 Snowstorm

GIANT TWO-TONE ZINNIA

Cut-&Come-Again

The medium size of this class makes them ideal for cut flowers. These three are the most desirable colors developed thus far.

W8262 Salmon Rose..	} Lg. Pkt. 1/4 Oz. Oz. 1/4 Lb.
W8263 Spun Gold....	
W8264 Scarlet.....	
	\$.15 \$.30 \$1.00 \$3.00

W8260 SUNSHINE TINTS

A mixture which includes many new and unusual shades not yet available in separate colors. Be sure to include this in your zinnia plantings.

Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. 90c; 1/4 Lb. \$2.75.

Fantasy Zinnias

W8285 MIXED COLORS

If well grown these are the most artistic of all zinnias, with their curled and twisted petals. Medium size flowers that make ideal cut flowers.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

Mexican Zinnias

W8280 HAAGEANA, Mixed Colors

The small single, semi-double and double blossoms an inch or less in diameter are variegated mahogany, red, orange yellow and cream, no two exactly alike in their markings. Height 12 to 15 inches. Continuous bloom. Since they are slower than the other zinnias, plant them a week or ten days earlier for sale as seedlings or transplants.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

Creeping Zinnias

W4686 SANVITALIA Procumbens

Grows only 4 to 5 in. high, spreads from 12 to 15 in. Small double bright yellow flowers with a dark eye. Blooms all summer. Excellent for edging, mass planting and rock gardens.

1/4 Oz. 50c; Oz. \$1.65.

W8220 Cupid Variety Mixture

Good bedding type more dwarf in habit than the Pompons bearing a profusion of very small double flowers.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.25.

W8225 Red Riding Hood

Plants one to two feet high produce masses of small, double, bright scarlet flowers all summer.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

HARDY PERENNIAL SEED

Much of Harris' perennial seed is grown on our own farm from carefully selected stock. The following are the perennials that can be grown most satisfactorily from seed.

AQUILEGIA

W2074 HARRIS' EXHIBITION HYBRIDS

Vigorous plants producing large long spurred flowers in a wide range of colors. Our breeding and selection have produced a strain that surpasses many in our trials.

Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

W2075 LONG SPURRED BLUE SHADES

Lg. Pkt. 40c; ¼ Oz. \$1.00.

CARNATION

W2310 HARRIS' HARDY. Mixed Colors

We are firmly convinced that our strain of this popular perennial cannot be duplicated. Contains a large percentage of doubles and a fine range of colors.

Lg. Pkt. 50c; ¼ Oz. \$2.25; Oz. \$7.00.

LUPINS

W3335 NEW RUSSELL, Harris' Supreme Mixture

We have been making selections from the originator's stock so the vigor and color range of pink, rose, buff, bronze, rust red and blues cannot be duplicated.

Lg. Pkt. 30c; ¼ Oz. 55c; Oz. \$2.00.

DELPHINIUM

Our seed comes from plants carefully selected for vigor, size of flower spikes and good color. It is fresh and of good germination.

W2641 HARRIS' MONARCH STRAIN

Our own selection of outstanding material from the best strains on the market. Many of our customers prefer this to the higher priced varieties because it is grown under northern conditions and requires no coddling.

Lg. Pkt. 40c; ⅛ Oz. 75c; ¼ Oz. \$1.25; Oz. \$4.00.

W2640 MORETON HYBRIDS

A good dependable mixture that is not flashy but has stood the test for many years and is still very popular.

Lg. Pkt. 15c; ¼ Oz. 60c; Oz. \$2.00.

W2642 HARRIS' DOUBLE WHITE (Galahad)

Continued careful selection from 100% double flowers assures you of a high percentage of double, pure white flowers on vigorous plants.

Lg. Pkt. \$1.00; ⅛ Oz. \$2.00; ¼ Oz. \$3.50; Oz. \$12.00.

W2665 PACIFIC HYBRIDS

Flowers are mostly double and semi-double in a range of shades, tones and combinations never before seen in delphiniums.

Lg. Pkt. \$1.00; ⅛ Oz. \$2.00; ¼ Oz. \$3.50; Oz. \$12.00.

W2645 BELLADONNA

The standard light blue for florists.

Lg. Pkt. 20c; ¼ Oz. 60c; Oz. \$2.00.

W2650 CHINENSIS (Butterfly Delphinium). Blue and White Mixed

Still the most adaptable delphinium for corsage and small bouquet work.

Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00.

Sprays and Dusts

ARSENATE OF LEAD

Use with hydrated lime as spray or dust.

4 lb. bag (makes 100 to 150 gal. of spray) . \$1.20 postpaid

BLACK LEAF 40

Standard nicotine-sulphate insecticide used as a contact spray for aphids, leafhoppers, delousing poultry, etc. Economical.

5 Oz. (makes 10 to 40 gal. solution) . . . \$1.10 postpaid
1 lb. (4/5 pt.) (makes 30 to 120 gal. solution)

2.60 postpaid

2 lbs. \$3.80; 5 lbs. (2 qts.) \$7.25 postpaid.

BORDEAUX MIXTURE

The standard fungicide for controlling mildew, rust, blight, etc. on fruits and vegetables, also roses and delphinium.

4 lb. bag (makes 25 gal. solution) . . . \$.95 postpaid
48 lb. case . . . \$6.80 not prepaid

CALCIUM ARSENATE

Can be used as a spray on all ground crops. Also effective as a quick action dust. One of the best controls for cucumber and potato beetles.

4 lb. bag (makes 50 gal. of spray) . . . \$.80 postpaid
48 lb. case . . . \$5.40 not prepaid

CALOMEL

The standard substance for treating seed of cabbage, cauliflower, etc. to control root maggot. Also used in solution for treating seed beds of cabbage, radishes, etc.

1 lb. (makes 80 to 160 gal. solution) . . . \$ 3.50 postpaid

CORROSIVE SUBLIMATE

Bichloride of Mercury. Used for treating seed potatoes for scab and rhizoctonia, lawns for brown patch, gladiolus for thrips, and on cabbage and cauliflower plants for maggots.

¼ lb. (makes 30 to 50 gal. solution) . . . \$.80 postpaid
1 lb. (makes 120 to 200 gal. solution) . . . 3.00 postpaid

DDT

DuraDust No. 25—Contains 25% DDT

The best form of DDT for agricultural purposes. Simply mix with water for spraying, or combine with talc or any dusting material when applying as a dust. Excellent for potatoes, cabbage and many other crops. Very powerful and lasts longer than other insecticides.

1 lb. . . . \$.90 postpaid
4 lbs. . . . 2.65 postpaid
25 lbs. . . . 15.00 not prepaid

NNOR—Rotenone Spray

Highly effective non-poisonous rotenone contact spray. In addition to rotenone it contains a substance that is a superior *wetting, spreading and penetrating* agent as well as an insecticide. Controls some of the most difficult insects such as Mexican bean beetle, red spider and aphids.

6 Oz. (makes 18 to 36 gal. solution) . . . \$1.00 postpaid
1 pt. (makes 50 to 100 gal. solution) . . . 2.15 postpaid

SULROTE

Non-poisonous, combined insecticide and fungicide, contains rotenone and sulphur; useful for combatting Mexican beetles, cabbage worms, cucumber beetles, etc., and the sulphur will control mildew. Non-poisonous to humans and animals. Rotenone content, .40%, other derris resins, .80%, sulphur 20%.

1 lb. . . . \$.35 postpaid
4 lbs. . . . 1.00 postpaid
48 lb. case . . . \$6.50 not prepaid

Seed Treatments

SEMESAN

For Vegetable and Flower Seeds. Protects seed from rotting and prevents damping off of seedlings. Use as a dry dust disinfectant for seeds and a liquid for treating soils. 1 oz. treats 15 to 30 lbs. of seeds.

⅓ Oz. 10c; 2 Oz. 40c; 12 Oz. \$1.90; 4 lbs. \$9.10;
25 lbs. \$52.50. Not prepaid.

SEMESAN JR.

For Field Corn and Sweet Corn. Cheap and effective. Prevents corn from rotting in the ground and increases stands. 1½ oz. treats 1 Bu. of seed.

1½ Oz. 15c; 12 Oz. 60c; 6¼ lbs. \$3.75. Not prepaid.

CERESAN

For Wheat, Oats and all Grain. Effective dust for control of covered smut on wheat, oats and barley. ½ oz. treats 1 Bu. of seed.

4 Oz. 30c; 1 lb. 80c; 4 lbs. \$2.70. Not prepaid.

SEMESAN BEL

For Seed Potatoes. One pound treats 50 to 60 bu. of cut potatoes. For control of rhizoctonia and seed-born scab.

2 Oz. 30c; 1 lb. \$1.65; 4 lbs. \$5.70. Not prepaid.

ARASAN

For Beets, Spinach and many other seeds. This new organic chemical is the best seed treatment for spinach and beets, and is also very valuable on vine crop seeds, corn, peppers and other seeds. Disinfects and protects the seed against organisms which cause rot, reduces damping off, and improves stands. Highly recommended by Experiment Stations.

1 Oz. 15c; 8 Oz. 80c; 5 lbs. \$5.15. Not prepaid.

SPERSON

For Lima Beans, Peas, etc. Protects seed against decay, improves stands and actually stimulates growth. Highly recommended for lima beans and excellent for peas. Treated seed may be sown without graphite. 2 oz. treats 1 Bu. of seed.

2 Oz. 45c; 1 lb. \$2.50; 5 lbs. \$10.50. Prepaid.

CROW REPELLENT

If you are troubled with crows and other birds pulling up your seed corn, treat it with STANLEY'S CROW REPELLENT. Will not harm the seed or clog the planter.

½ pint (enough for 1 Bu.) . . . \$.60
Pint (enough for 2 Bu.) . . . 1.00
Quart (enough for 4 Bu.) . . . 1.75
Transportation paid.

HOTKAPS

HOTKAPS are scientifically constructed wax paper cones, which are placed over the plant or hill of seeds. Their use enables the grower to set out his plants or plant his seed as soon as the ground is warm. They afford protection to the young plants from frost, wind and beating rains and insects.

- 100 with Fibreboard Setter.....\$2.20 postpaid
 250 with Fibreboard Setter..... 3.95 postpaid
 1000 to 4,000 without Setter
 (wt. 28 lbs. per 1000)...\$11.00 per M not prepaid
 5,000 to 10,000 without Setter
 (wt. 28 lbs. per 1000)... 10.75 per M not prepaid

HOTENT—Note the large size and sturdy construction.

Note: Purchaser pays transportation on Hotkaps, Hotents, Super Hotents and Fertile Pots, except where quoted "postpaid." When ordering please be sure to tell us how to ship, whether by mail, express or freight.

"FERTILE" POTS

Now Better Than Ever!

Our new formula assures a steadier and more even plant growth in these famous manure pots. Plants raised in them can be set out in the field, pots and all, without any check in growth. The pot disintegrates and furnishes just the right plant food for best growth. These pots save time and labor, and actually produce earlier fruit and better yields. Valuable for Early Cabbage, Egg Plant, Peppers, Tomatoes, Melons, etc.

These pots are now carefully packed in new strong divided cartons, especially designed to prevent breakage in transit.

FERTILE POTs are now available in the following sizes:

No. 2½ (about 2½" outside diameter):

- Carton of 60.....\$1.60 postpaid
 Carton of 250 (wt. about 18 lbs.) \$3.50 not prepaid
 1000 or more.....\$13.00 per M not prepaid

No. 3 (about 3" outside diameter):

- Carton of 60.....\$1.80 postpaid
 Carton of 250 (wt. about 25 lbs.) \$4.00 not prepaid

Please write for quotations and full information on the following items:

RUBBER BANDS—Synthetic. Specify size and quantity wanted.

RAFFIA—Best quality.

PARCHMENT PAPER (white.) For wrapping celery, etc.

HOTENTS

Larger area and taller, wire reinforced. See photo for size and shape. Measure 10½ x 14½ x 8½, or 152½ sq. in. at base. Will stand up under adverse conditions. Some of our customers have found *Hotents* especially valuable for growing melons and use many thousands each year.

- 500 (wt. 35 lbs.).....\$8.00 not prepaid
 1000 or more.....\$15.50 per M not prepaid

We cannot ship less than 500 Hotents because cartons for packing smaller quantities are not available.

SUPER HOTENTS

The largest practical field forcer we know. Specially made paper reinforced with wire. Size 14" x 18" by 12" high.

- 500 (wt. 60 lbs.).....\$13.45 not prepaid
 1000 or more.....\$24.95 per M not prepaid

(Now available only in cartons of 500.)

SUPER HOTENT Metal Setters (wt. 6 lbs.)
 \$2.95 each not prepaid

"OPEN-HED" SPRAYERS

These 4 gallon sprayers are the same fine type that we sold before the war.

The seams are all electrically welded, and the sprayers are galvanized after the welding which prevents rusting and cracking along the seams. Equipped with double acting pump lock and double grip pump handle. Opening 5 in. in diameter for easy filling and cleaning.

No. 4D Open-Hed Galvanized.....\$7.35

Transportation charges prepaid in the U. S. east of the Mississippi River and North of Tennessee.

For hand sprayers and dusters see our retail catalog.
